

Construction at Wynyard Station concluding in March 2018

In planning for Tomorrow's Sydney we have upgraded Wynyard Station to provide increased customer capacity and an improved gateway to Barangaroo and Sydney's financial district.

What we're doing at Wynyard

The York Street entrance at Wynyard Station is now open to the public, providing access from York Street to Wynyard Station, Wynyard Walk and the surrounding precinct.

In March, we will be carrying out and concluding minor construction work at Wynyard Station and Wynyard Walk during the following hours:

Day works: 7am to 6pm Monday to Sunday

Night works: 7pm to 6am Monday to Sunday

Work in March includes completion of finishes at the York Street escalators and final inspections of building systems at the station. Work will also take place to finalise permanent customer signage around the station.

Work may take place on the concourse, at the York Street entrance, at the York Street escalators, and on the platforms outside of peak times.

There will also be a one night closure of Escalator 1 and Escalator 4 at York St from 8pm on 11 March until 5am on 12 March, for the final completion of finishes. Escalators 2 and 3 will remain open.

Work beyond March 2018

If required, we may carry out minor activities beyond March to address any construction related issues as they arise. We will notify affected stakeholders of any out-of-hours or potentially disruptive work that may take place in future, although this is not expected at this stage.

Thank you for your patience

With minor work concluding in March, this marks the completion of construction activities on the Wynyard Station Upgrade project. We appreciate railway construction can be disruptive for nearby residents, businesses and station users. This work has been critical to ensuring Wynyard Station stands up to the demands of the future. We thank you for your patience and understanding during this important work.
