

Transport Access Program

Glenbrook Station Upgrade

Community Notification

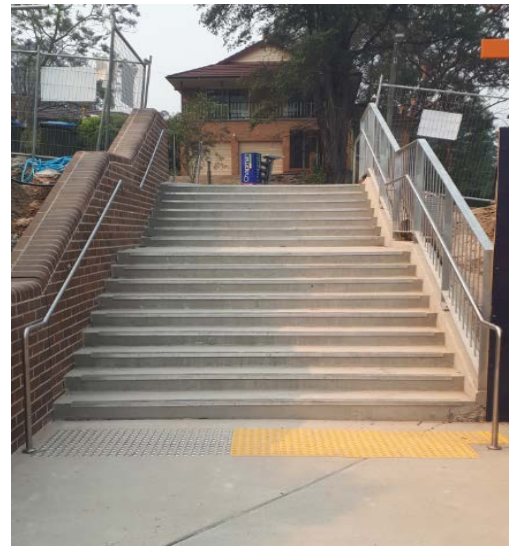

December 2019

Project update

The Glenbrook Station Upgrade is part of the Transport Access Program, a NSW Government initiative to provide a better experience for public transport customers by delivering accessible, modern, secure and integrated transport infrastructure.

During November work on the Glenbrook Station Upgrade included:

- continued road work on Burfitt Parade, including the establishment of two new accessible parking spaces
- completion and opening of a new family accessible toilet
- completion of lift features and service testing
- testing of new electrical assets
- opening of new station stairs
- construction of new ramp connecting Burfitt Parade footpath to the station footbridge, and permanent closure of the existing ramp
- coping edge painting on the platforms.

New stairs from Burfitt Parade

Completed family accessible toilet facilities

Work planned in December to bring the project to completion

This month will see the completion of work on the Glenbrook Station Upgrade. Activities scheduled this month will include:

- opening of the new ramp connecting Burfitt Parade footpath to the station footbridge
- completion of roadwork and opening of pedestrian crossing
- landscaping on Burfitt Parade
- opening of the new lift for customer use.

Changes to working hours

To finalise this important station upgrade, December work will take place outside of the standard work hours. Work will occur between **7am to 7pm, Monday to Friday and 7am to 6pm Saturdays**. We understand upgrades to the station can bring some inconvenience during construction and thank you for your patience during this time.

And that's a wrap

Transport for NSW and Downer EDI would like to thank the community for their continued support and cooperation as we near completion of the Glenbrook Station Upgrade. With construction kicking off in January 2019 we have worked hard to deliver a new lift, upgraded accessible car spaces, footpath and pedestrian crossing, upgrades to station amenities, CCTV and lighting to improve customer safety and security.

It is a result of the community's feedback, support, patience and understanding, that the project was completed on time and has delivered the community a fully accessible station precinct.
