New Intercity Fleet
Stations and Signalling Modifications

Community Notification

The NSW Government is delivering a New Intercity Fleet to replace trains carrying customers between Sydney and the Central Coast, Newcastle, the Blue Mountains and the South Coast. The new trains will feature:

- wider seats with arm rests, tray tables and high seat backs
- two-by-two seating for extra room and comfort
- improved accessibility including wheelchair access and accessible toilets
- improved customer information through digital information screens and announcements
- dedicated spaces for luggage, prams, bicycles and wheelchairs
- charging ports for electronic devices
- CCTV and help points
- modern heating and air conditioning

Project overview

The New Intercity Fleet will feature enhanced safety features including automatic selective door operation technology, which makes sure only the doors on the platform open.

This feature requires the installation, testing and commissioning of technology called ‘balises’ onto tracks and minor modifications to existing rail infrastructure at various stations on the Central Coast and Newcastle, Blue Mountains and South Coast lines.

The work is being completed by Novo Rail Alliance on behalf of Transport for NSW.
Upcoming work

Work at stations along the Central Coast and Newcastle Line will start from **4 November 2019**, weather permitting. Work includes installing and programming the balise components on the tracks within the station platform area of each station.

To minimise disruption to customers and ensure the safety of workers and the community, this will be completed at night between **7:30pm and 5:30am, Monday to Friday**.

Work is not expected to be noisy or disruptive, and every effort will be made to minimise any impacts.

What you may notice

Equipment to be used includes low-profile battery-powered lighting towers and various hand and power tools. Signs will be in place to inform and direct rail customers where required.

Lighting towers will be positioned to provide light in the work area while minimising light glare and exposure to nearby residents.

During the work, up to seven car park spaces may be unavailable in the commuter car park of the station where work is being undertaken.

More information

For more information, please call **1800 684 490**, email projects@transport.nsw.gov.au or visit transport.nsw.gov.au/projects.

For urgent enquiries or complaints, please call the 24-hour construction response line on **1800 775 465**.
