

Transport Access Program Blackheath Station Upgrade

Artist's impression of the proposed Blackheath Station Upgrade, subject to change during detailed design

The NSW Government is improving accessibility at Blackheath Station

Investigations are currently underway to develop an early concept design for Blackheath Station to make it more accessible for all customers.

The early concept design includes:

- three new lifts to station entries and platforms
- upgrades to the existing accessible parking spaces, kiss and ride bay and taxi zone
- removal of the non-compliant pedestrian level crossing
- upgrades to station footpaths
- platform upgrades including new tactiles and installation of an accessible water fountain
- improvements to CCTV, lighting and wayfinding
- upgrades to the station footbridge and stairs
- provision of new bicycle hoops.

Feedback on the early concept design can be provided at www.transport.nsw.gov.au/blackheath, through our Project Infoline **1800 684 490** or emailed to projects@transport.nsw.gov.au

Come and meet the project team

Members of the project team will be available to answer any questions you have about the early concept at:

- **The Blackheath Community Markets, Blackheath Public School, Sunday 6 October between 9am-1pm.**
- **Blackheath Community Centre, Bates Hall, Wednesday 16 October between 4.30pm-6.30pm.**

If you are unable to attend these information sessions, but would like to speak with the project team please call **1800 684 490** or email projects@transport.nsw.gov.au.

Your feedback will help Transport for NSW understand what is important to customers and the community and will help inform further design. A Review of Environmental Factors will be prepared for public display in 2020 and feedback will be invited on the concept design at this time.

Next steps

We are here

Transport for NSW develops initial design concept for the project and invites feedback.

Transport for NSW prepares a Review of Environmental Factors (REF) for public display and invites submissions.

Transport for NSW assesses and responds to feedback and prepares a submissions report/determination report with proposed conditions to minimise environmental impacts.

Transport for NSW determines the Proposal.
Conditions of Approval made available on Transport for NSW website.

Construction commences subject to compliance with conditions.

Transport Access Program

This project is part of the Transport Access Program, a NSW Government initiative to provide a better experience for public transport customers by delivering accessible, modern, secure and integrated transport infrastructure.

As part of this program, the Blackheath Station Upgrade would aim to provide a station that is accessible to people with a disability, limited mobility, parents/carers with prams and customers with luggage.
