

# New Intercity Fleet Maintenance Facility

## OUT OF HOURS NOTIFICATION

The NSW Government is delivering a New Intercity Fleet to replace trains carrying customers between Sydney and the Central Coast, Newcastle, the Blue Mountains and the South Coast.

Detailed design and construction of the new maintenance facility at Kangy Angy, which will service and maintain the New Intercity Fleet, is being delivered by John Holland on behalf of Transport for NSW.

### Extended work hours

1pm to 6pm, Saturday 14 December 2019

During this time, work will take place to install conduits under the main north rail line and the vegetation retention zone near the traction substation off Enterprise Drive.

The work will involve a directional drill rig and extend beyond the standard construction hours (of 1pm) on Saturday 14 December.

The work may cause some noise at times, however all available measures will be taken to minimise the impact.

Thank you for your patience and understanding while we undertake this work.

Working closely and effectively with the local community is a priority for Transport for NSW and John Holland.

For more information about the project please call **1800 684 490**, email **projects@transport.nsw.gov.au** or visit **transport.nsw.gov.au/projects**.

For urgent enquiries or complaints about construction activities, please call our 24 hour construction response line **1800 775 465**.
