The NSW Government is replacing the ageing regional rail fleet of XPT, XPLORER and Endeavour trains. A new purpose-built maintenance facility will be built in Dubbo as part of this project.

The new trains will improve safety, comfort and reliability for customers who travel from Sydney to many regional centres in NSW, as well as Canberra, Melbourne and Brisbane.

The detailed design and construction of the maintenance facility is being delivered by Momentum Trains on behalf of Transport for NSW.

**Upcoming work**

Planning and preparation for future site mobilisation work is underway. As part of this work, site investigation activities are expected to continue.

Work to prepare the maintenance facility site for construction will also take place. These activities include the classification and removal of spoil and some excavation. An increased level of truck movement via White Street is anticipated.

These activities are expected to take around six weeks to complete, weather permitting.

**Location of work**

The extent of work has been highlighted below.
What you may notice

There will be an increased level of activity around the site as this work is carried out. Equipment to be used on site includes:

- Excavators
- Loader
- Trucks and trailer
- Watercarts
- Grader
- Road sweeper

These activities may result in increased noise levels and minor dust emissions. Dust suppression techniques including the use of water will be implemented to control impacts to the surrounding community.

Hours of work

Site clearance and ground testing will be undertaken during standard construction hours:

- Monday to Friday, 7am to 6pm
- Saturdays, 8am to 1pm.

Advance notification will be provided to potentially impacted community members and stakeholders if work outside of these hours is required.

We apologise for any disruption these activities may cause. We are committed to minimising the impact of our work where possible.

Keeping the community informed

Working closely and effectively with the local community is a priority for Transport for NSW and Momentum Trains.

Our project team will keep you up to date about upcoming works with regular notifications and updates on our website.

For urgent enquiries or complaints regarding construction activities, please call our 24-hour Construction Response Line on 1800 775 465.
