

# Transport Access Program

## Hazelbrook Station Upgrade

Community Notification

September 2019

### Temporary changes to the commuter car park and pedestrian access changes

Up to 20 parking spaces will be temporarily unavailable from Tuesday 18 September to mid November 2019 to allow upgrade to parts of the commuter car park, footpath on Railway Parade and the pedestrian crossing.

Vehicle access to the car park will be through Addington Street only. Pedestrian access will be maintained via Railway Parade.

The two accessible parking spaces and bike storage lockers will be relocated during the construction period.

The footpath and pedestrian crossing on Railway Parade will be upgraded as part of this work. Signage will be in place to assist pedestrians for the duration of this work.

Railway Parade will be reduced to a single lane of traffic while the upgrade of the footpath and pedestrian crossing takes place. Temporary traffic lights will be in place on Railway Parade to assist motorists as they pass the work area.

Work activities include:

- installation of pedestrian access ramp along the north side of the car park
- installation of bike racks
- relocation of the bike storage locker
- realignment and regrading of the accessible parking spaces
- asphaltting of the car park
- removal and replacment of garden beds
- upgrade of footpath and pedestrian crossing

We understand upgrades to the station can bring some inconvenience during construction and thank you for your patience during this time.

Please refer to the map overleaf.
