

Transport Access Program

North Strathfield Station Upgrade

Community Notification

September 2019

Project update

The North Strathfield Station Upgrade is part of the Transport Access Program, a NSW Government initiative to provide a better experience for public transport customers by delivering accessible, modern, secure and integrated transport infrastructure.

Work completed in August included:

- completion of road and footpath adjustments on Hamilton Street East
- completion of the new concrete footpath at the foot of the stairs on Queen Street
- delivery and initial installation of lift cars and equipment.

Work planned for September

- ongoing installation of external wall coverings, roofing and screens to new lift structures
- ongoing installation of new handrails and shield plating at new lift locations
- ongoing installation of electrical and communication systems
- new concrete footpath work for the new Hamilton Street access ramp lift located on Platform 3
- ongoing installation of lift cars and equipment.

Hamilton Street East work

Work will continue on the Hamilton Street East pedestrian access ramp to allow for the construction of a new, accessible footpath from Hamilton Street East to Platform 3.

Pedestrian access to the station via the access ramp from Hamilton Street East has been temporarily closed and will re-open in mid-September.

The kiss and ride located in Hamilton Street East has been temporarily closed for the duration of this work. The kiss and ride on the eastern side of North Strathfield Station remains open.

A pedestrian detour is in place along George Street to Pomeroy Street and along the pathway adjacent to the rail corridor leading to North Strathfield Station. Signage is in place to assist the community with this detour.

Work at North Strathfield Station

Standard working hours

Standard work hours are between **7am to 6pm, Monday to Friday and 8am to 1pm Saturdays**. We will continue to inform the community ahead of any works outside of standard work hours. We understand upgrades to the station can bring some inconvenience during construction and thank you for your patience during this time.
