

# Transport Access Program

## Rooty Hill Station Upgrade and Commuter Car Park

### PROJECT UPDATE

NOVEMBER 2019

The final stages of the Rooty Hill Station Upgrade and Commuter Car Park are underway, with new features progressively opening for use by the community and customers.

### New footbridge

*View of the new Rooty Hill Station, photo taken from the new Commuter Car Park on North Parade.*

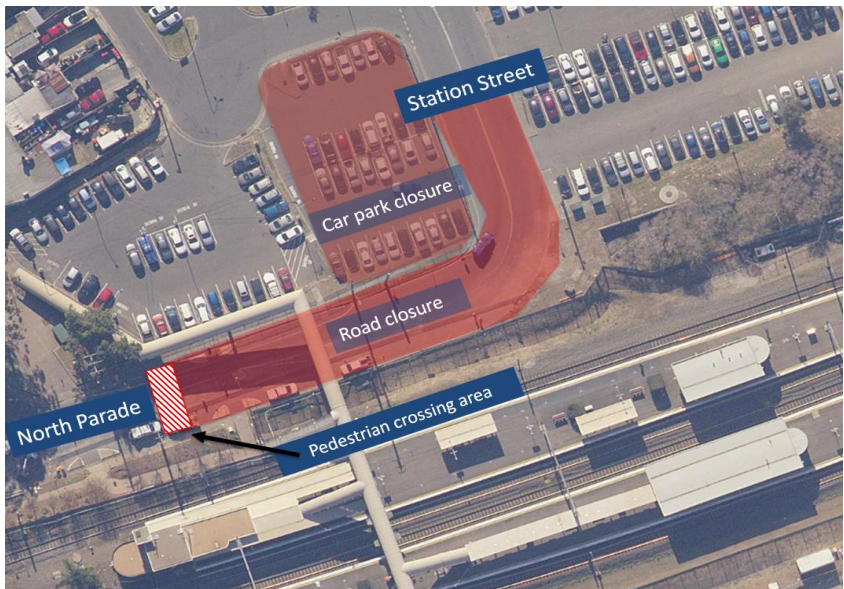

The new footbridge will open later this month and the old station footbridge will be removed. Signage will be installed to assist customers with access changes and construction will continue on the new lifts, with opening scheduled for early 2020.

### Weekend work

For improved safety of workers, pedestrians and motorists, some weekend work will be required this month during a scheduled Sydney Trains track work period, where no trains will be running. This work will take place between **12pm Friday 8 November until 5am Monday 11 November**, and include removal of the old footbridge, installation of canopies over stairs and resurfacing of station platforms. Rooty Hill Station and footbridge will be closed to pedestrian access during the rail shut down period and a free shuttle bus will be available to transport people between the north and south sides of the station. Signage will be installed to assist commuters with these changes.

## Traffic changes and car park closure

During November, North Parade and Station Street will temporarily close to allow for the construction of new footpaths and landscaping along the North Parade station entrance.

Blacktown City Council's car park on North Parade will partially close for one week between **Friday 8 November until Friday 15 November** to allow for crane operation and the safe storage of construction materials.

A new pedestrian crossing is now open providing pedestrians with safe access when crossing North Parade to the station entrance. Traffic controllers will be available and signage installed to assist commuters and pedestrians with access changes.

## Night work

For improved safety of workers, pedestrians and motorists, some mid-week night work will take place this month, in addition to our standard work hours.

Date and Time	Construction Activities
6pm Monday 4 November - 6am Wednesday 6 November	Connection of water main on Rooty Hill Road North
6pm Monday 11 November - 6am Thursday 14 November	Installation of station services Installation of station roofing
6pm Monday 18 November - 6am Thursday 21 November	Platform asphalting

We understand upgrades to the station can bring some inconvenience during construction and thank you for your patience during this time.

## Indigenous art installation at Rooty Hill

Transport for NSW is working with the Blacktown City Council Aboriginal Advisory Committee and Western Sydney indigenous artists to design a piece of artwork for installation at the North Parade entrance to the station later this year.

*“Rooty Hill Station is clearly becoming a Western Sydney transport hub, improving connectivity for commuters to the wider network. The station upgrade is an incredible investment in our suburb which will service major surrounding developments like the Sydney Zoo and Western Sydney Airport.*

*It is exciting times in historic Rooty Hill!”*

*-Jim McGuire, Rooty Hill resident*
