

Transport Access Program

Oatley Station Works

Community Notification

August 2019

The Transport Access Program is a Transport for NSW initiative to provide a better experience for public transport customers by delivering accessible, modern, secure and integrated transport infrastructure.

The Oatley Station Upgrade was completed and opened to the public in early 2017.

Standard maintenance works to the footbridge, including repainting and weatherproofing, are required and will be undertaken in the coming months by the construction contractor.

Upcoming weekend and night work

From **4am Saturday 17 August to 7am Monday 19 August 2019** work will take place at Oatley Station during a scheduled Sydney Trains shutdown to ensure the safety of workers and pedestrians.

Every effort will be made to minimise the impact on nearby residents by completing noisy works during daytime hours wherever possible.

Please visit **transportnsw.info** or call **131 500** for up to date information regarding replacement services at this time.

We thank the community for the ongoing support and patience while we complete these important works.

This document contains important information about public transport projects in your area. If you require the services of an interpreter, please contact the Translating and Interpreting Service on 131 450 and ask them to call Transport for NSW on (02) 9200 0200. The interpreter will then assist you with translation.
