

Redfern Station Upgrade – New Southern Concourse

COMMUNITY NOTIFICATION

JULY 2019

Investigations are underway to plan for a new southern concourse at Redfern Station.

The Redfern Station Upgrade – New Southern Concourse aims to provide a station that is accessible to those with a disability, limited mobility, parents/carers with prams and customers with luggage. Upgrading the station will make it easier for all customers to access, reduce congestion on the platforms and improve connections between the station and key destinations in the area.

Weekend site investigation work

From **7am on Saturday 20 July to 3am on Sunday 21 July**; and as contingency from **7am to 5pm on Sunday 21 July** investigative borehole drilling will be undertaken on platforms at Redfern Station.

Equipment for this work will be delivered to site via the rail corridor entrance on Gibbons Street from the Eveleigh compound on Railway Parade. The equipment will be delivered between **6am – 8am on Saturday 20 July** and will be returned following completion of work.

Maps of the work area and site compound are provided overleaf. If you would like to speak with the project team about this work, please contact us by calling **1800 684 490** or by emailing us at projects@transport.nsw.gov.au.

For up-to-date information about train services during this time visit transportnsw.info

What you may notice

Equipment to be used during the investigations includes light vehicles, a hi-rail crane truck, a small drill rig and a generator.

Transport for NSW is committed to minimising noise impacts on the community. Equipment will be switched off when it is not being used and it will be located as far away from properties as possible. We will monitor our work activities to make sure noise and vibration levels are managed effectively.

Have your say

Community consultation is underway on four potential options for the new southern concourse at Redfern Station. Information about these options is available at the project website transport.nsw.gov.au/redfern. You can have your say by visiting the website and completing the online survey, or by emailing projects@transport.nsw.gov.au.

The results of the investigations currently being undertaken will be used to help inform the planning and design of each of these options.
