

Power Supply Upgrade Program

Schofields to Riverstone

COMMUNITY NOTIFICATION

AUGUST 2019

Transport for NSW is upgrading electrical infrastructure as part of the Power Supply Upgrade Program, which is designed to meet expected power requirements for Sydney's future rail network and new fleet of air-conditioned trains.

Weekend work

Between 6am and 6pm on Saturday 24 August and Sunday 25 August, we will be working inside the rail corridor from St Albans Road, Schofields to Castlereagh Street, Riverstone to install and adjust overhead wires. We will also install safety screens on the Westminster Street Bridge, over the rail line.

To ensure the safety of our customers and staff, this work will be completed during a scheduled Sydney Trains trackwork weekend. Train services will be affected during weekend works. Please contact **Transport Info** on **131 500** or visit **transportnsw.info** for more information about replacement bus services.

Please see map overleaf of the Westminster Street Bridge works.

Partial lane closure

A partial lane closure will be in place on the Westminster Street Bridge between Railway Terrace and Bridge Street **6am to 6pm Sunday 25 August** to allow the works described above to be safely carried out.

Through traffic will be maintained at all times although delays may be experienced. Traffic control will be in place to safely direct traffic and pedestrians. Please follow directions and proceed carefully.

What you may notice

Access to the rail corridor for workers and equipment will be via the gates on Railway Parade south of Westminster Street, Schofields and at West Parade, Riverstone. Vehicles will also access the tracks via the level crossing opposite King Street, Riverstone.

Up to five parking spaces will be temporarily unavailable on West Parade, Riverstone from 5am Monday 19 August to 6pm Wednesday 28 August while work is carried out in the rail corridor.

Construction equipment

Equipment to be used includes cherry pickers, crane truck, work vehicles, winch, generator and various hand and power tools.

Transport for NSW is committed to minimising noise impacts on the community. We switch off equipment when it is not being used, place equipment as far away from properties as possible and monitor our work activities to make sure noise levels are being managed effectively.

Keeping the community informed

If you would like to speak with the project team about these works, please contact us via the details provided below. Thank you for your understanding during this work.
