

Sutherland to Cronulla Active Transport Link

COMMUNITY NOTIFICATION

May 2019

Stage 1 Sutherland to Kirrawee

The Sutherland to Cronulla Active Transport Link (SCATL) is a pedestrian and bicycle path between Sutherland and Cronulla to help make walking and bike riding a more convenient, safer and enjoyable transport option.

Stage 1 Sutherland to Kirrawee will connect key destinations such as transport interchanges, schools, residential areas and business precincts.

Construction of Stage 1 is underway, and work will be completed progressively between Sutherland and Kirrawee. Stage 1 will be opened as each area is completed with bike riders and pedestrians able to use all of Stage 1 by early 2020.

New shared zone, McCubbens Lane

McCubbens Lane, Sutherland, is now complete, becoming a 'shared zone' for pedestrians, motorists and cyclists. The shared zone is now in effect along the full length of McCubbens Lane, between Old Princes Highway and Eton Street, with a new 10 km/h speed enforced.

McCubbens Lane will remain a one-way street for motorists travelling from west to east, from Old Princes Highway to Eton Street. New street signs have been installed to inform pedestrians and road users of the changed traffic conditions.

Night work, Eton Street, Sutherland

Construction of the new shared zone on Eton Street will continue with some works required outside of standard work hours to minimise impacts on local traffic and for the safety of pedestrians and workers. This will occur during the hours of **7pm and 5am** between **Monday 3 June** and **Friday 28 June 2019**.

Eton Street will have partial closures and detours between McCubbens Lane and President Avenue for about **eight night shifts** between **Monday 3 June** and **Friday 28 June**. We will reinstate a disabled parking spot in the area, and complete work to the new pedestrian crossing to improve the safety for all road users. Please see map overleaf for further details on the completed and upcoming works.

Night work activities will include movement of trucks and excavators, line-marking, saw cutting, concreting and the use of various hand and power tools.

This work may be noisy at times, but we will do everything we can to minimise impacts by completing noisier work as early as possible, switching off equipment when it is not being used, placing equipment as far away from residential properties as possible, and monitoring our work activities to make sure noise levels are being managed effectively.

There may be temporary traffic changes during night work to ensure the work zone is safe. Lane closures and detours will be advised through signage and traffic controllers will be in place. Please keep to the speed limits and follow signs and traffic controllers' directions.

Please allow additional travel times and we thank you for your patience during these works.

Keeping the community informed

We will keep the community informed of upcoming work via regular notifications and update on our website. If you would like to speak with the project team about this work, please contact us on 1800 684 490 or email projects@transport.nsw.gov.au.

This document contains important information about public transport projects in your area. If you require the services of an interpreter, please contact the Translating and Interpreting Service on **131 450** and ask them to call Transport for NSW on **(02) 9200 0200**. The interpreter will then assist you with translation.
