

Power Supply Upgrade Program

Seven Hills to Blacktown

COMMUNITY NOTIFICATION

AUGUST 2019

Transport for NSW is upgrading electrical infrastructure as part of the Power Supply Upgrade Program, which is designed to meet expected power requirements for Sydney's future rail network and new fleet of air-conditioned trains.

Weekend work

From 4am Saturday 24 August to 6pm Sunday 25 August, we will install concrete footings for overhead wire structures between Oxford Street, Blacktown and Jean Street, Seven Hills.

To ensure the safety of our customers and staff, this work will be completed during a scheduled Sydney Trains trackwork weekend. Train services will be affected during weekend works. Please contact Transport Info on **131 500** or visit **transportnsw.info** for more information about replacement bus services.

What you may notice

Between 7am and 6pm from Tuesday 20 August to Friday 23 August, temporary site facilities and a generator will be delivered into the rail corridor via the access gate on Hartley Road, Seven Hills.

Construction equipment

Equipment to be used includes cherry pickers, excavators, street sweeper, concrete truck, concrete pump, generator, vacuum trucks, light towers, work vehicles, various hand and power tools.

Transport for NSW is committed to minimising noise impacts. We switch off equipment when it is not being used, place equipment as far away from properties as possible and monitor our work activities to make sure noise levels are being managed effectively.

Keeping the community informed

If you would like to speak with the project team about these works, please contact us via the details provided below. Thank you for your understanding during this work.

This document contains important information about public transport projects in your area. If you require the services of an interpreter, please contact the Translating and Interpreting Service on **131 450** and ask them to call Transport for NSW on **(02) 9200 0200**. The interpreter will then assist you with translation.
