

Transport Access Program

Waratah Station Upgrade

Project Update

September 2019

Transport Access Program

The Waratah Station Upgrade is being delivered as part of the Transport Access Program, a NSW Government initiative to provide a better experience for public transport customers by delivering accessible, modern, secure and integrated transport infrastructure.

Project overview

Transport for NSW is upgrading Waratah Station to make it easier for everyone to access, including people with a disability, limited mobility, parents/carers with prams and customers with luggage.

September work

Construction activities will continue in September and will include:

- concrete work for the lift on Platform 1 (within hoarding)
- concrete work for the two external lifts, on Platt Street and Railway Terrace
- using piling drill rig to construct concrete piles and foundations for the external lift shaft on Railway Terrace.

Equipment to be used includes jack hammers, excavators, piling drill rig, concrete pumps, trucks, vacuum truck, surveying equipment, power and hand tools.

Standard construction hours

Work will be carried out during standard construction hours, **7am to 6pm, Monday to Friday**, and **8am to 1pm, Saturday**. Notifications of any works occurring outside of these standard hours will be given prior to works commencing.

Railway Terrace – temporary changes to footpath and traffic conditions

A partial footpath closure is currently in place on Railway Terrace.

Pedestrian access to the footbridge and station will remain and a temporary footpath has been installed to provide a safe thoroughfare around the work zone.

Traffic control and signage will be in place to assist pedestrians and motorists with this temporary change. Please follow the direction of traffic controllers, adhere to reduced speed limits and follow traffic signs.

This change is temporary and will be in place for up to two months.

See the map overleaf for more detail.
