

Power Supply Upgrade Program

Riverstone

COMMUNITY NOTIFICATION

August – September 2020

Transport for NSW is upgrading electrical infrastructure as part of the Power Supply Upgrade Program, which is designed to meet expected power requirements for Sydney's future rail network and new fleet of air-conditioned trains.

Upcoming activities

Starting Monday 31 August and during September upgrade work to electrical rail infrastructure will occur inside the Sectioning Hut (used to provide power for use by trains) near Riverstone Station. Access to the Sectioning Hut is via the footpath on Riverstone Parade (near Mill Street). Work will take place **between 7am and 6pm, Monday to Friday**.

What you may notice

Between 7am and 6pm on Tuesday 1 September, new electrical equipment will be delivered to the Sectioning Hut by truck. Traffic controllers will safely guide pedestrians and motorists around the delivery truck.

Construction equipment

Equipment to be used during the work activities includes a crane truck, lighting towers inside the substation, work vehicles and various hand and power tools.

Transport for NSW is committed to minimising noise impacts on the community. We switch off equipment when it is not being used, place equipment as far away from properties as possible and monitor our work activities to make sure noise levels are being managed effectively.
