

Transport Access Program

Beecroft Station Upgrade

Project Update

July 2020

Transport Access Program

The NSW Government is improving accessibility at Beecroft Station. The upgrade is part of the Transport Access Program, an initiative to provide a better experience for public transport customers by delivering modern, safe and accessible infrastructure.

Project overview

Upgrading Beecroft Station will make it easier for everyone to access, including those with a disability, limited mobility, parents/carers with prams and customers with luggage.

Key features of the upgrade include:

- two new lifts to provide access to the pedestrian underpass and station platform
- regrading the existing footpath to provide an accessible path to the new lift
- a new pedestrian landing over the existing staircase
- improvements to accessible parking in the Sutherland Road commuter car park
- upgraded footpaths around the station precinct to improve accessibility
- new platform canopy providing under cover access from the lift to the Boarding Assistance Zones
- improved station precinct security (CCTV), wayfinding and lighting
- new landscaping.

Project update

A contract for the design and construction of the Beecroft Station Upgrade project was awarded in June 2020, with survey and investigation work occurring this month.

Site establishment and construction activities are expected to start in September 2020.

Weekend work: 25 and 26 July 2020

Work will be carried out from **7am to 7pm** on Saturday 25 and Sunday 26 July 2020 during a scheduled trackwork weekend.

Please note, the pedestrian underpass will be closed from 7am to 7pm on Saturday 25 July 2020. A temporary detour using Copeland Road (to the south of Beecroft Station) will operate during the work to ensure the safety of the community and our workers.

For more information call 1800 684 490.

Email projects@transport.nsw.gov.au or visit www.transport.nsw.gov.au/beecroft.

For urgent enquiries or complaints regarding construction activities, please call 24 hours 1800 775 465

The weekend work will include:

- using a small drilling rig to undertake geotechnical investigations of the ground conditions and services on the existing ramp to Wongala Crescent and platform
- surveying the platform, station building, existing services and footings
- constructing a temporary service crossing beneath the rail tracks.

The results from these investigations will help inform the final design of the project.

Equipment to be used includes mini piling rigs, vacuum excavation trucks, delivery trucks, elevated work platforms, power and hand tools. All equipment will be positioned as far away from residential areas as possible and breaks will be used to provide respite during noisy work.

For information about rail replacement buses during the scheduled trackwork, please visit transportnsw.info or phone **131 500**.

Temporary loss of space in the commuter car park

Up to 5 spaces will be unavailable while site investigation work is underway within the Wongala Crescent car park during July scheduled weekend work. Signage will be installed to notify commuters of the changes.

Keeping the community informed

The community will be kept informed with regular project notifications and information via the project website: www.transport.nsw.gov.au/beecroft.

For further information on the project please call the Project Infoline on **1800 684 490** or email projects@transport.nsw.gov.au.

For all urgent enquiries or complaints regarding construction activities, please call our 24-hour Construction Response Line on **1800 775 465**.
