Transport for NSW is boosting safety across the electrified rail network by delivering new Automatic Train Protection (ATP) technology.

**Project overview**

ATP will make the train network safer and more reliable by ensuring trains operate within the permitted speed limit.

The technology will provide real-time speed and signal information to train drivers. The system includes:

- installation of electronic equipment on rail lines to continually monitor train speed
- installation of electronic equipment on suburban and Intercity trains which provides information on the train's speed, distance and direction.

ATP is being rolled out across the Sydney Trains and NSW TrainLink electrified network.

**Upcoming construction activities**

At Wentworthville between 8pm Saturday 22 and 6am Sunday 23 August, we will be reinstating equipment that was temporarily moved during recent trackwork.

To ensure the safety of our customers and staff, this work will be completed during a scheduled Sydney Trains trackwork weekend. Train services will be affected during weekend work. Please contact Transport Info on 131 500 or visit transportnsw.info for information about replacement bus services.

**What you may notice**

We will be installing signalling equipment within the rail corridor using various hand and power tools. The equipment will be installed at two sites at Wentworthville. All activities will occur within the rail corridor, with workers accessing the corridor via access gates on Wentworth Avenue near the intersection with Bourne Street and on The Kingsway adjacent to Wentworthville Train Station Commuter Car Park.

Transport for NSW is committed to minimising noise impacts on the community. We switch off equipment when it is not being used, place equipment as far away from properties as possible and monitor our work activities to make sure noise levels are being managed effectively.
Keeping the community informed

For the latest information, please visit transport.nsw.gov.au/projects or call 1800 684 490. For urgent enquiries or complaints, call our 24 hour construction response line on 1800 775 465.

Thank you for your patience and understanding during these important safety improvements to the rail network.
