The NSW Government is replacing the ageing regional rail fleet of XPT, XPLORER and Endeavour trains. A new purpose-built maintenance facility will be built in Dubbo as part of this project.

The new trains will improve safety, amenity and reliability for customers who travel from Sydney to many regional centres in NSW, as well as Canberra, Melbourne and Brisbane.

The detailed design and construction of the maintenance facility is being delivered by Momentum Trains on behalf of Transport for NSW.

Upcoming work

It has been necessary to reschedule the electricity connection works to the CPB Contractors construction compound in White Street. This involves installing an electrical conduit under White Street using an under road boring machine.

The work is expected to take 2 days to complete within the period between 14 April 2020 and 6 May 2020.

Location of work

The extent of these works is shown below.
What you may notice

There will be a speed reduction and traffic control on White Street in the vicinity of the under boring machine for the duration of the works. There will be no road closure.

Equipment to be used includes but is not limited to:

- Trucks and trailers
- Utility vehicles
- Under boring machine

Hours of work

Work will be undertaken during standard construction hours:

- Monday to Friday, 7am to 6pm
- Saturdays, 8am to 1pm.

Advance notification will be provided to potentially impacted community members and stakeholders if work outside of these hours is required.

We apologise for any disruption these activities may cause. We are committed to minimising the impact of our work where possible.

Keeping the community informed

Working closely and effectively with the local community is a priority for Transport for NSW and Momentum Trains.

Our project team will keep you up to date about upcoming works with regular notifications and updates on our website.

For urgent enquiries or complaints regarding construction activities, please call our 24-hour Construction Response Line on 1800 775 465.
