

Commuter Car Park Program

Edmondson Park

Above: Artist impression Edmondson Park Commuter Car Park, subject to detailed design

Transport for NSW is delivering additional commuter car parking at Edmondson Park Station to provide you with more convenient access to public transport and reduce congestion on our roads. The first step of delivering up to 2,000 additional spaces is underway and includes:

- a multi-storey car park with up to 1,000 additional parking spaces to the south of the station
- free parking for up to 18 hours with Transport Park&Ride
- additional accessible parking spaces
- lift access
- road pavement and pedestrian pathway upgrades
- CCTV, lighting and wayfinding for improved safety and security
- provision for electric vehicle charging spaces and motorbike parking is also being assessed.

Project status

Detailed design work is now underway on the multi-storey car park to the south of the station before major construction begins in August. The car park is expected to be complete and open to the community in mid-2021.

Transport for NSW will continue to work with key stakeholders to finalise plans for the remaining car parking spaces and more information will be shared with the community soon.

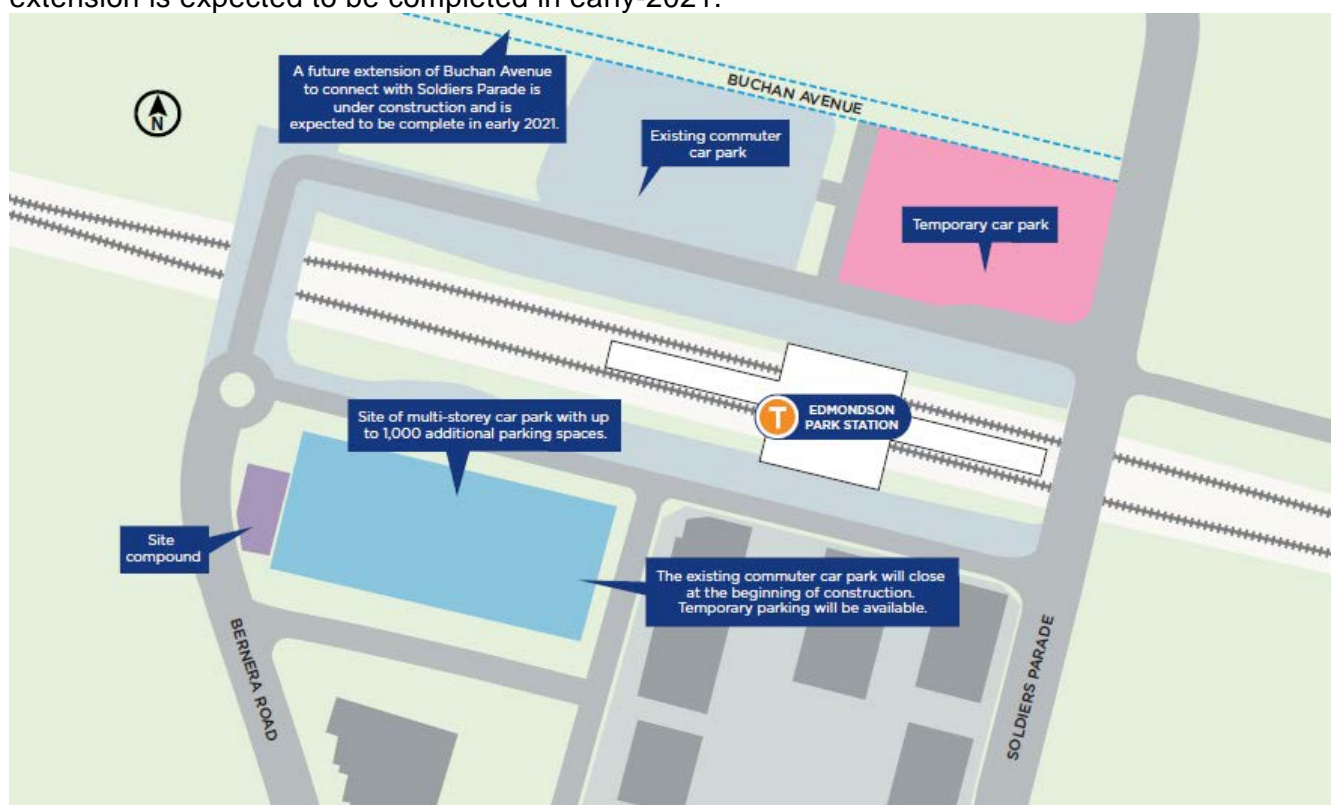

Temporary parking during construction

During construction, the existing southern car park will be closed to ensure work on the multi-storey car park is completed safely. A temporary car park will be built on vacant land north of the station to minimise disruption during construction.

Landcom will build the temporary car park on behalf of Transport for NSW. The temporary car park is targeted for completion in August when major construction of the multi-storey car park begins. The existing car park to the north of the station will remain open to customers during construction. The temporary spaces will be free and untimed.

Buchan Avenue extension

Landcom is extending Buchan Avenue from Faulkner Way to the north west of the station through to Soldiers Parade. The road extension will provide improved access to the station and the town centre, on street parking, a cycle lane and will help to improve traffic flow in and around the station precinct. The extension is expected to be completed in early-2021.

Keeping you up to date

We will continue to keep you informed about the project through notifications to customers, local residents and businesses, and frequent updates published at www.transport.nsw.gov.au/edmondsonpark. If you would like to be added to the project distribution list, please contact us on **1800 684 490** or email projects@transport.nsw.gov.au.

This document contains important information about public transport projects in your area. If you require the services of an interpreter, please contact the Translating and Interpreting Service on **131 450** and ask them to call Transport for NSW on **(02) 9200 0200**. The interpreter will then assist you with translation.
