

# Transport Access Program

## Faulconbridge Station Upgrade

Project update

January/February 2020

### Project planning approval

Transport for NSW have recently approved the Faulconbridge Station Upgrade, with early survey and investigations work starting later this month. Thank you to everyone who provided feedback during the community consultation period late last year. Information about how the feedback was considered can be found in the project Determination Report at [www.transport.nsw.gov.au/faulconbridge](http://www.transport.nsw.gov.au/faulconbridge)

#### Key feedback included:

- general support for the station to become accessible
- requests for the upgrade to progress as quickly as possible
- requests for additional upgrades to the eastern side of the station, and additional project features
- requests for information around the purpose of the lifts
- concerns regarding potential impacts on heritage and landscape features
- requests for additional and upgraded parking
- requests for improved security

For more information call **1800 684 490**,

For urgent enquiries or complaints regarding construction activities, please call 24 hours **1800 775 465**

## Project overview

The Faulconbridge Station Upgrade is being delivered under the Transport Access Program, a NSW Government initiative to provide a better experience for public transport customers by delivering accessible, modern, secure and integrated transport infrastructure.

Key features of the Faulconbridge Station Upgrade include:

- two new lifts to access the station platform and bus stop
- new unisex ambulant toilet and a family accessible toilet
- upgrades to the pedestrian ramp connecting the commuter car park to the footbridge
- upgrades to the existing, accessible car space
- upgrades to the kiss and ride bay in the existing commuter car park
- upgrades to station pathways, stairs and platform
- additional CCTV, lighting and signage

Site set-up is scheduled to start in the second quarter of 2020, with construction expected to take around 12 months to complete.

## Pre-construction work

Early activities, including planning, site surveying and investigation work is scheduled to begin on **Tuesday 28 January 2020**. This work will take place during standard construction hours from **7am to 6pm Mondays to Fridays and Saturdays 8am to 1pm**.

## Weekend work

For improved safety of workers, pedestrians and motorists, some weekend work will be required outside of standard construction hours. Weekend work is scheduled during Sydney Trains track work periods, where no trains will be running.

This work would take place between **Friday 28 February and Monday 2 March 2020** and includes some geotechnical investigations. The project team will be using hand-held power tools, hi-rail plant, surveying equipment and geotechnical bore hole drilling machinery over this weekend.

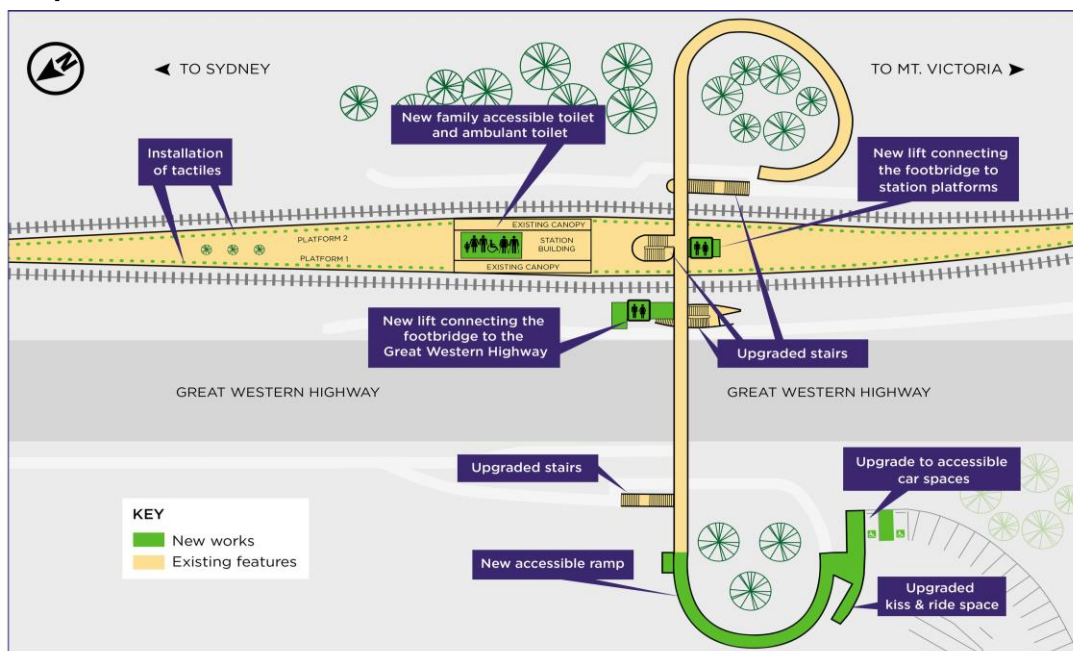

Measures will be implemented to reduce noise associated with this work, including using non-tonal reversing alarms, turning machinery off when not in use, and monitoring noise levels.

Please visit [transportnsw.info](http://transportnsw.info) or call 131 500 for up to date information regarding service updates and replacement buses during this time.

## Keep in touch

We will continue to keep the community informed with regular project updates. Further information is available on the project website [www.transport.nsw.gov.au/faulconbridge](http://www.transport.nsw.gov.au/faulconbridge). If you would like to be added to the project distribution list, or for more information on the Faulconbridge Station Upgrade, please contact us on **1800 684 490** or email [projects@transport.nsw.gov.au](mailto:projects@transport.nsw.gov.au)

For all urgent enquiries or complaints regarding construction activities, please call our **24-hour Construction Response Line on 1800 775 465**
