

Transport Access Program

Faulconbridge Station Upgrade

Project update

December 2020

Upcoming work in December

The upgrade to Faulconbridge Station is progressing well, with work on the lifts, ramp and toilets undertaken in November.

Construction activities in December will include:

- upgrading the ramp between the footbridge and Railway Avenue commuter car park
- installing steel structures for the two lifts
- installing lift scaffolds
- installing new power supply service from Sir Henry Parade to the station
- upgrading the toilets and station waiting room on the platform
- landscaping.

Equipment to be used during this work will include excavators, compactors, mobile cranes, elevated work platforms, delivery and concrete trucks, and power tools.

Temporary traffic changes – Sir Henry Parade

During December we will be upgrading the power supply to the station. This work will be undertaken over approximately four days, weather permitting. This work involves trenching across Sir Henry Parade to install underground power supply services and restoring the road surface once the work is complete.

To maintain the safety of workers and the community, there will be a **temporary single lane closure** on Sir Henry Parade under the direction of traffic controllers. Signage will be in place to help pedestrians and motorists with the temporary changes.

Temporary traffic changes – Great Western Highway

During December, there will be **intermittent single lane road closures** on **Great Western Highway (westbound)** near Faulconbridge Station. The intermittent closures will take place between **Monday and Friday** from **10am to 2pm** to accommodate large construction vehicles. Traffic control and signage will be in place to help pedestrians and motorists with the traffic changes.

Temporary access changes – between footbridge and commuter car park

Work continues in December to upgrade the ramp between the footbridge and Railway Avenue commuter car park. This includes constructing a retaining wall, earthwork and construction of the new concrete footpath/ramp. Pedestrian and vehicle access will be maintained at all times.

For more information call **1800 684 490**,

Email projects@transport.nsw.gov.au or visit transport.nsw.gov.au/faulconbridge

For urgent enquiries or complaints regarding construction activities, please call 24 hours **1800 775 465**

Toilet and waiting room reopens

On **Monday 14 December** the station waiting room and former female toilet will reopen to customers. Thank you for your patience throughout the closure.

Standard construction hours

Our construction hours are now 7am to 6pm every day, including public holidays.

We understand extending construction hours to weekends and public holidays may cause disruption for the community and all efforts will be made to minimise impacts where possible and ensure strict environmental conditions relating to noise, vibration and dust management are adhered to.

Keep in touch

If you would like to be added to the project distribution email list, or for more information on Faulconbridge Station Upgrade please contact us on **1800 684 490** or email projects@transport.nsw.gov.au.

For all urgent enquiries or complaints regarding construction activities, please call our 24-hour Construction Response Line on **1800 775 465**.

Thank you for your patience and support during this important work.
