

Transport Access Program

Faulconbridge Station Upgrade

Community Notification

July 2020

Upcoming work

The upgrade at the Faulconbridge Station started in May with site set up activities.

Construction work will continue in July and includes:

- concrete work at the location of the two lift shafts
- staged closure of station toilets to allow for upgrade work (one unisex toilet will remain open for use)
- continued site set up work including installation of a temporary site compound at the Railway Avenue commuter car park (subject to Council approval)
- ongoing site investigations
- installation of site fencing on the station platform.

Equipment to be used during these activities includes excavators, delivery/concrete trucks, power and hand tools.

Temporary traffic changes

Throughout our work, there may be occasional temporary traffic changes on the Great Western Highway near Faulconbridge Station. This will include single lane road closures to accommodate large construction vehicles and to enable concrete work to take place at the lift on the Great Western Highway side of the station.

Traffic control and signage will be in place to help pedestrians and motorists with any traffic changes.

Construction hours

To support the industry and continue the delivery of critical infrastructure, the NSW Government has introduced new rules allowing construction sites to operate on weekends and public holidays.

Standard construction hours are now 7am to 6pm every day, including public holidays. These changes have been made to facilitate social distancing on construction sites and support the health and wellbeing of workers.

We understand extending construction hours to include weekends and public holidays may cause disruption for the community. All efforts will be made to minimise impacts where possible and ensure strict environmental conditions relating to noise, vibration and dust management are adhered to.

Thank you for your patience as work continues on important transport infrastructure across NSW.

Temporary changes map – July 2020

Legend:

-  Site compounds next to the Railway Avenue commuter car park (subject to Council approval)
-  Work zones for the two lifts
-  Temporary construction zone
-  Staged closure of toilets for upgrade work. One unisex toilet will remain open during station operation hours

Keep in touch

We will continue to keep the community informed with regular project updates. Further information is available on the project website transport.nsw.gov.au/falconbridge.

If you would like to be added to the project distribution list, or for more information on the Faulconbridge Station Upgrade, please contact us on **1800 684 490** or email projects@transport.nsw.gov.au.

For all urgent enquiries or complaints regarding construction activities, please call our **24-hour Construction Response Line** on **1800 775 465**.

This document contains important information about public transport projects in your area. If you require the services of an interpreter, please contact the Translating and Interpreting Service on **131 450** and ask them to call Transport for NSW on **(02) 9200 0200**. The interpreter will then assist you with translation.
