

Transport Access Program

Faulconbridge Station Upgrade

Project update

November 2020

Upcoming work in November

Construction on the Faulconbridge Station Upgrade is progressing well, with lift shaft excavation, ramp and toilet upgrade work undertaken in October. Construction activities in November will include:

- upgrading the ramp between the footbridge and Railway Avenue commuter car park
- concreting work and installing steel structures for the two lifts
- installing electrical services and concrete work on the platforms
- installing new power supply service to the station (connection with services on Sir Henry Parade)
- upgrading the toilets and station waiting room on the platform.

Equipment to be used during this work will include excavators, compactors, mobile cranes, elevated work platforms, delivery and concrete trucks, and powered hand tools.

Night work – 9, 10, 11 November 2020

To maintain safety for our workers and subject to approval night work will be carried out between **8pm and 5am** from **Monday 9 November** until **Wednesday 11 November 2020**, weather permitting.

During this work there will be a temporary single lane closure on the Great Western Highway (westbound) as delivery trucks, a mobile crane, elevated work platforms, mobile lighting towers, power and hand tools operate to install steel structures for the new lift on Great Western Highway.

Traffic control and signage will be in place to help pedestrians and motorists with the temporary changes.

Temporary traffic changes – Sir Henry Parade

During November we will be upgrading the power supply to the station. This work will be undertaken over five days between **7am and 6pm, Monday to Friday**, weather permitting. This work involves trenching across Sir Henry Parade to install underground power supply services and restoring the road surface.

To maintain the safety of workers and the community during this work, there will be a **temporary single lane closure** on Sir Henry Parade under the direction of traffic controllers. Signage will be in place to help pedestrians and motorists with the temporary traffic and access changes.

For more information call **1800 684 490**,

Email projects@transport.nsw.gov.au or visit www.transport.nsw.gov.au/faulconbridge

For urgent enquiries or complaints regarding construction activities, please call 24 hours **1800 775 465**

Temporary traffic changes – Great Western Highway

From early November until late December, during standard working hours, there will be temporary traffic changes at **Great Western Highway near Falconbridge Station**. This includes **temporary single lane road closures** to accommodate large vehicles undertaking construction work. Traffic control and signage will be in place to help pedestrians and motorists with the traffic changes.

Temporary access changes – between footbridge and commuter car park

Work continues in November to upgrade the ramp between the footbridge and Railway Avenue commuter car park. This includes installing a retaining wall, earthwork and construction of the new concrete footpath/ramp. Pedestrian and vehicle access will be maintained at all times. Directional signage is in place to help pedestrians with these temporary changes.

Toilet and waiting room closure

The station waiting room and former female toilet are closed for refurbishment and are expected to reopen in December 2020.

Standard construction hours

Our construction hours are now 7am to 6pm every day, including public holidays.

We understand extending construction hours to weekends and public holidays may cause disruption for the community and all efforts will be made to minimise impacts where possible and ensure strict environmental conditions relating to noise, vibration and dust management are adhered to.

Keep in touch

If you would like to be added to the project distribution email list, or for more information on the Falconbridge Station Upgrade, please contact us on **1800 684 490** or email projects@transport.nsw.gov.au.

For all urgent enquiries or complaints regarding construction activities, please call our 24-hour Construction Response Line on **1800 775 465**.

Thank you for your patience and support during this important work.
