

# Transport Access Program

## Faulconbridge Station Upgrade

Project update

October 2020

### Upcoming work in October

Construction on the Faulconbridge Station Upgrade is progressing well, with footpath upgrade, lift shaft excavation and toilet upgrade work continuing throughout September. Construction activities in October will include:

- upgrading the ramp between the footbridge and Railway Avenue commuter car park
- concreting work and installing steel structures for the two lifts
- installing electrical services and concrete work on the platforms
- installing new power supply service to the station (connection with services on Sir Henry Parade)
- upgrading the bathrooms and station waiting room on the platform.

Equipment to be used during this work will include excavators, compactors, mobile cranes, elevated work platforms, delivery and concrete trucks, power and hand held tools.

### Temporary traffic changes – Sir Henry Parade

From **Monday 26 October 2020** until **late November 2020** between **7am and 6pm** there will be **five shifts** of work to upgrade the power supply to the station (weather permitting). Work during the day involves creating a trench across Sir Henry Parade in sections to install underground power supply services and restore the road surface following.

To maintain the safety of our workers and the community, there will be a temporary single lane closure operating under the direction of traffic controllers between **7am and 6pm, between Monday and Friday**. Signage will also be in place to help pedestrians and motorists with the temporary traffic and access changes. Further notifications will be provided should there be any disruptions to power.

### Temporary traffic changes – Great Western Highway

Throughout our work, there may be occasional temporary traffic changes at **Great Western Highway near Faulconbridge Station, including single lane road closures** to accommodate large vehicles undertaking construction work and to enable concrete work at the Great Western Highway lift work area.

Subject to approval, from October until end of the year, we will receive intermittent delivery of steel from a large delivery truck using the Great Western Highway (westbound) between **Monday and Friday from 10am and 2pm**. Traffic control and signage will be in place to help pedestrians and motorists with the temporary traffic changes.

For more information call **1800 684 490**,

For urgent enquiries or complaints regarding construction activities, please call 24 hours **1800 775 465**

## Temporary access changes – between footbridge and commuter car park

Work continues in October, to upgrade the ramp between the footbridge and Railway Avenue commuter car park. This includes installing a retaining wall, earthwork and construction of the new concrete footpath/ramp. Pedestrian and vehicle access will be maintained at all times. Directional signage will be in place to help pedestrians and motorists with these temporary changes.

## Toilet reopens and waiting room closure

On **Monday 12 October 2020**, the former male toilet on the platform will reopen as a family accessible toilet for customers. The station waiting room and former female toilet will then close for refurbishment and are expected to reopen in December 2020.

## Standard construction hours

**Our construction hours are now 7am to 6pm every day, including public holidays.**

We understand extending construction hours to weekends and public holidays may cause disruption for the community and all efforts will be made to minimise impacts where possible and ensure strict environmental conditions relating to noise, vibration and dust management are adhered to.

## Keep in touch

If you would like to be added to the project distribution email list, or for more information on the Faulconbridge Station Upgrade, please contact us on **1800 684 490** or email [projects@transport.nsw.gov.au](mailto:projects@transport.nsw.gov.au).

For all urgent enquiries or complaints regarding construction activities, please call our 24-hour Construction Response Line on **1800 775 465**.

Thank you for your patience as work continues on important transport infrastructure across NSW.
