Transport Access Program

Hawkesbury River Station Upgrade

Project update **November 2020**

The NSW Government is improving accessibility at Hawkesbury River Station. The upgrade is part of the Transport Access Program, a NSW Government initiative to provide a better experience for public transport customers by delivering modern, safe and accessible infrastructure.

Construction commenced in November 2019 and the upgrade expected to be complete in early 2021.

Upcoming work

Work will continue in November and include:

- installation of stair nosings on the footbridge
- installation of hand rails and balustrades to the lift landings
- completing new communication and lighting on the platform
- installation of fencing on Dangar Road between the lift and the ferry wharf
- installation of a new power supply to the station on Dangar Road
- continued road work on Dangar Road (at the station frontage) and construction of the new footpath forecourt at the station entrance.

Equipment to be used includes small excavators, demolition saws, tipper trucks, heavy vehicles, concrete delivery trucks, handheld tools, generators, rollers, cranes, elevated work platforms and concrete saws.

Work will be carried out during standard construction hours, which is 7am to 6pm Monday to Friday and 7am to 6pm Saturday.

We will notify nearby residents and businesses in advance if work needs to be completed outside these times.

Image: New tactile indicators were installed on the platforms in October to help people with impaired vision.

Toilet amenities

The new unisex family accessible toilet is now open for use. The female toilet has been demolished and construction of the individual male and female ambulant toilets is nearing completion.

Temporary traffic, pedestrian and parking changes

To assist pedestrians and motorists, traffic control will be in place from time to time on Dangar Road during construction work and deliveries.

A temporary footpath has been established on Dangar Road to divert pedestrians away from construction work. In late November, pedestrians will be directed to use the northern side of the station entrance steps (closest to the ferry wharf) while work continues on the footpath forecourt.

Signs and traffic control are in place to assist pedestrians.

Keeping the community informed

The community will be kept informed with regular project notifications and information via the project website found at: http://www.transport.nsw.gov.au/hawkesbury-river.

For further information on the project, please call the Project Infoline on **1800 684 490** or email **projects@transport.nsw.gov.au**. For all urgent enquiries or complaints regarding construction activities, please call our 24-hour Construction Response Line on **1800 775 465**.
