

Transport Access Program

Lapstone Station Upgrade

Project update

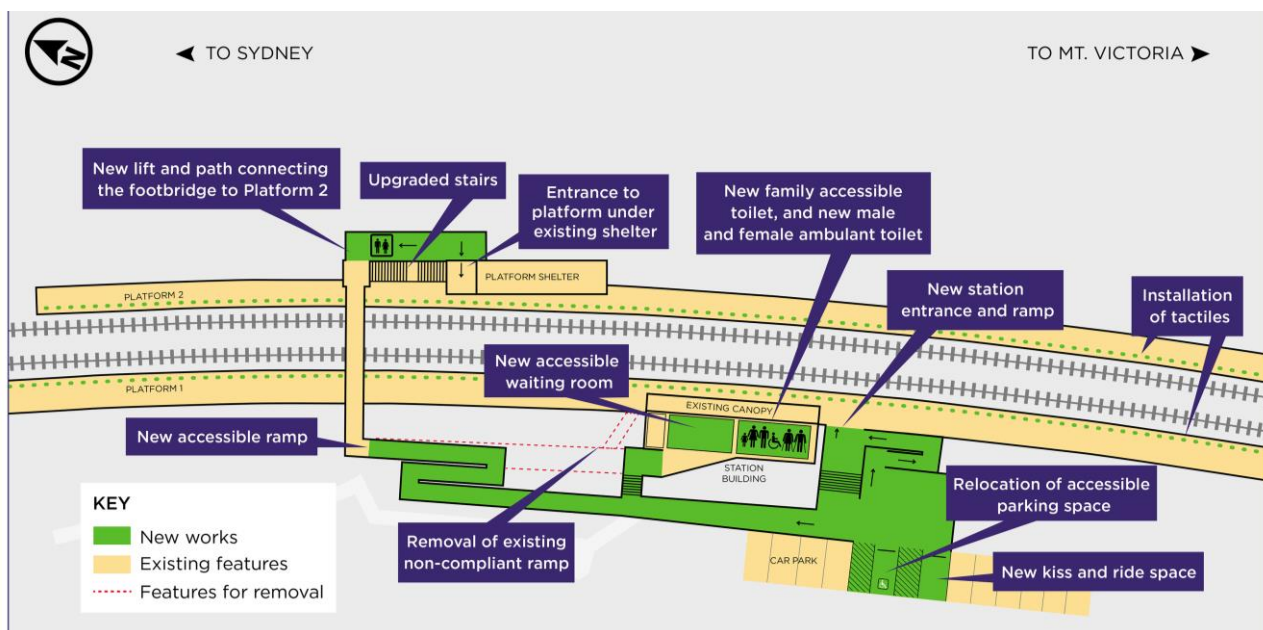

January/February 2020

Project planning approval

Transport for NSW have recently approved the Lapstone Station Upgrade, with early survey and investigations work starting later this month. Thank you to everyone who provided feedback during the community consultation period late last year. Information about how the feedback was considered can be found in the project Determination Report at www.transport.nsw.gov.au/lapstone

Key feedback included:

- general support for an accessibility upgrade
- requests for maintained / improved pedestrian access links between Leonay and Lapstone Station
- requests for toilets to become accessible outside of staffed hours
- concerns for vegetation around the station
- requests for additional facilities including visual display boards, platform seating, improved signage, upgraded public address (PA) system and installation of opal card readers.

For more information call **1800 684 490**,
Email projects@transport.nsw.gov.au or visit www.transport.nsw.gov.au/lapstone
For urgent enquiries or complaints regarding construction activities, please call 24 hours **1800 775 465**

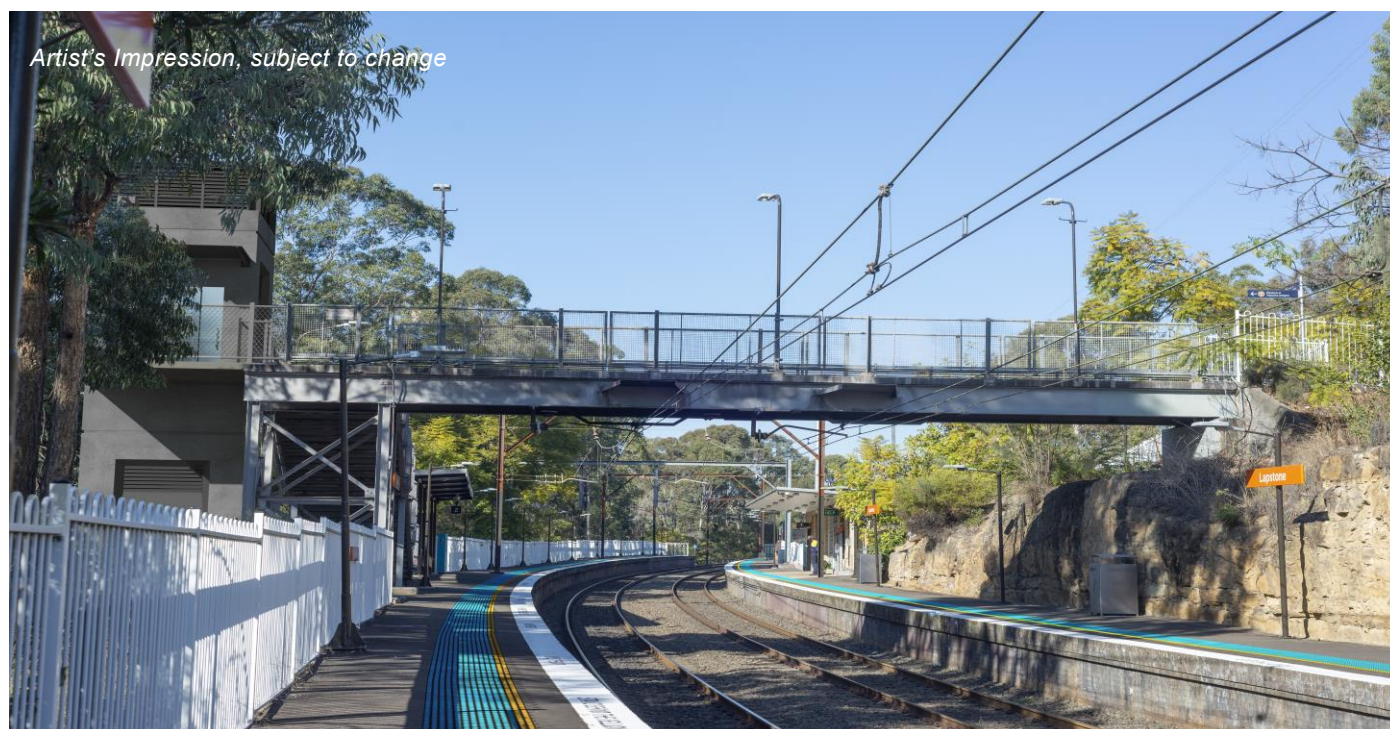

Project overview

The Lapstone Station Upgrade is being delivered under the Transport Access Program, a NSW Government initiative to provide a better experience for public transport customers by delivering accessible, modern, secure and integrated transport infrastructure.

Key features of the upgrade include:

- a new lift connecting the footbridge to Platform 2
- upgrades to the accessible car spaces and a new kiss and ride bay
- upgrades to the ramp from the commuter car park to the pedestrian footbridge
- a new station entrance to Platform 1
- accessibility upgrades to the platform waiting room
- upgrades to station pathways, stairs and platforms
- upgrades to CCTV, lighting and signage.

Site set-up is scheduled to start in the second quarter of 2020, with construction expected to take around 12 months to complete.

Pre-construction work

Early activities, including planning, site surveying and investigation work is scheduled to begin on **Tuesday 28 January 2020**. This work will take place during standard construction hours from **7am to 6pm Mondays to Fridays and Saturdays 8am to 1pm**.

Weekend work

For improved safety of workers, pedestrians and motorists, some weekend work will be required outside of standard construction hours. Weekend work is scheduled during Sydney Trains track work periods, where no trains will be running.

This work would take place between **Friday 28 February and Monday 2 March 2020** and includes some geotechnical investigations. The project team will be using hand-held power tools, hi-rail plant, survey equipment and geotechnical bore hole drilling machinery over this weekend.

Measures will be implemented to reduce noise associated with this work, including using non-tonal reversing alarms, turning machinery off when not in use, and monitoring noise levels.

Please visit transportnsw.info or call 131 500 for up to date information regarding service updates and replacement buses during this time.

Keep in touch

We will continue to keep the community informed with regular project updates. Further information is available on the project website www.transport.nsw.gov.au/lapstone. If you would like to be added to the project distribution list, or for more information on the Lapstone Station Upgrade, please contact us on **1800 684 490** or email projects@transport.nsw.gov.au

For all urgent enquiries or complaints regarding construction activities, please call our **24-hour Construction Response Line** on **1800 775 465**
