

Commuter Car Park Program

Leppington

Project update

October 2020

Artist's impression of Leppington Commuter Car Park, subject to detailed design

Transport for NSW is delivering a multi-storey car park with up to 1,000 additional parking spaces at Leppington Station to provide you with more convenient access to public transport and reduce congestion on our roads.

The new multi-storey car park will be completed and opened to customers in mid-2021.

Progress update

In September, the site boundary of the multi-storey car park was extended further east into the northern commuter car park and piling began (pictured right). Site offices were also relocated.

Camden Council continued construction of the temporary commuter car park located opposite the station on Rickard Road. This work included laying of the car park pavement, access road and footpaths. Kerb and gutter work and installation of light footings was also completed. The car park will have approximately 250 parking spaces and is on track to open to by the end of September.

Upcoming construction work

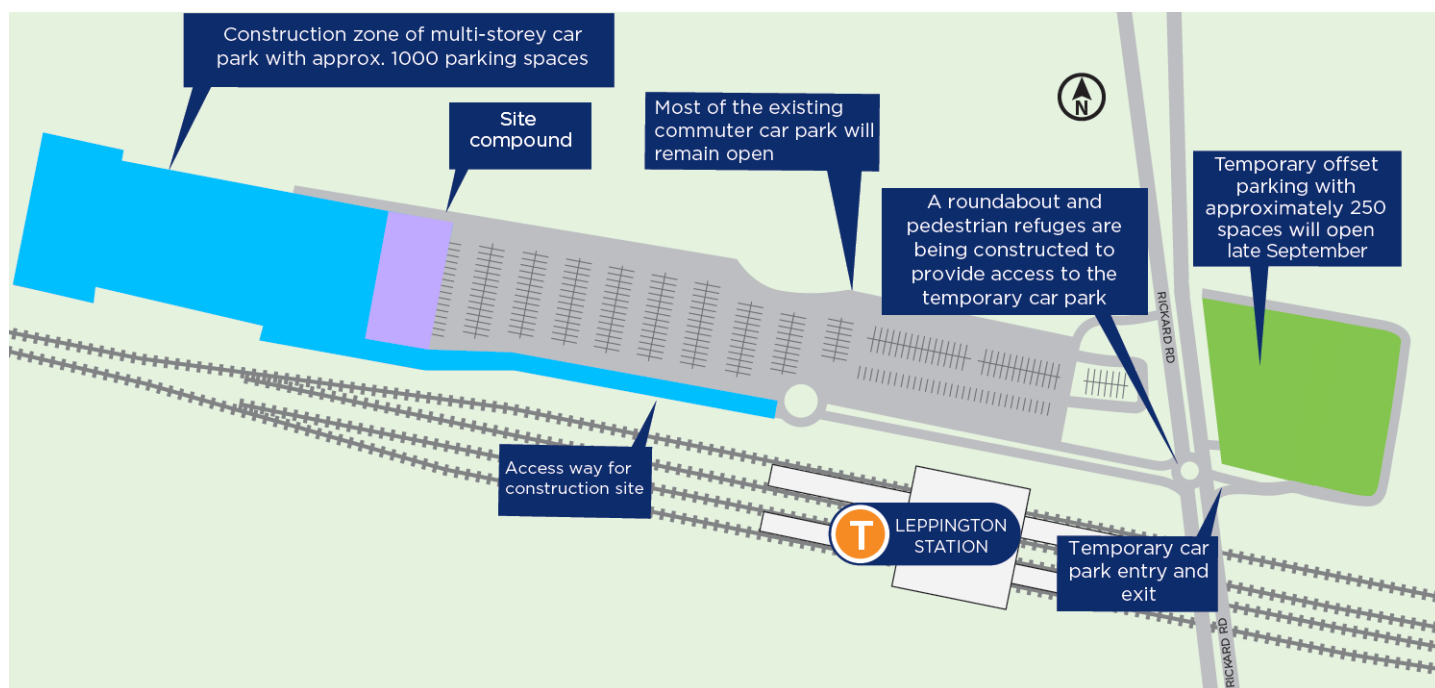

During October, the following work will occur on the new multi-storey car park:

- Continue piling work for the new car park structure
- Delivery and set up of two tower cranes
- Excavation for stair bases and shear walls
- Concrete pours for footings and ground slab

Deliveries will be scheduled outside peak times wherever possible to avoid disruption to commuters. The majority of the work will take place during standard construction hours between **7am - 6pm Monday to Friday and 8am - 1pm on Saturdays**.

The tower cranes will be delivered to site from **6am on Tuesday 29 September and Thursday 1 October**. Preparation work and installation of the cranes will occur from **Monday 28 September - Friday 2 October**. There will be no disruption to footpath, road or car parking access and noise levels are not expected to be disruptive.
