

Power Supply Upgrade Program

Narwee

COMMUNITY NOTIFICATION

JANUARY 2020

Transport for NSW is upgrading electrical infrastructure as part of the Power Supply Upgrade Program, which is designed to meet expected power requirements for Sydney's future rail network and new fleet of air-conditioned trains.

Night work

From 11pm Wednesday 29 to 4am Thursday 30 January, we will be working within the Narwee Substation connecting new circuits into a switchboard. Access to the substation will be via the rail gate located on Broadarrow Road, Narwee.

Construction equipment

Equipment to be used include various hand tools.

Transport for NSW is committed to minimising noise impacts on the community. We switch off equipment when it is not being used, place equipment as far away from properties as possible and monitor our work activities to make sure noise levels are being managed effectively.

Keeping the community informed

If you would like to speak with the project team about this work, please contact us via the details provided below. Thank you for your understanding during this work.
