

Transport Access Program

Mittagong Station Upgrade

Project update

June 2020

The upgrade at Mittagong Station is being delivered as part of the Transport Access Program, a NSW Government initiative to provide a better experience for public transport customers by delivering accessible, modern, secure and integrated transport infrastructure across the state.

Making progress at Mittagong Station

Upcoming work

During June, work activities will include:

- finishing the concreting work for the lift shaft
- electrical work for operations and existing station buildings
- finishing the upgrade of station amenities
- modifications to the existing pedestrian footbridge
- installation of lighting on Regent Street and Railway Parade
- construction of a temporary ramp on Railway Parade

Extended construction hours

To support the industry and continue the delivery of critical infrastructure, the NSW Government has introduced new rules allowing construction sites to operate on weekends and public holidays. Standard construction hours are now 7am to 6pm every day, including public holidays. These changes have been made to facilitate social distancing on construction sites and support the health and wellbeing of workers.

Transport for NSW understands extending construction hours to weekends and public holidays may cause disruption for the community and all efforts will be made to minimise impacts where possible and ensure strict environmental conditions relating to noise, vibration and dust management are adhered to.

Temporary loss of parking

From **Tuesday 9 June**, up to seven parking spaces will be temporarily unavailable within the Railway Street car park near the western entrance to station. There will also be up to four parking spaces temporarily unavailable at the Regent Street car park on the eastern side of the station. These parking spaces will be occupied for approximately two months to allow for lighting and lift installation work.

Temporary pedestrian access changes

From **Tuesday 9 June**, access to the station will be via the temporary ramp located in the Regent Street car park for approximately two months. This is to prepare for deliveries and initial lift installation work.

Weekend work

Station upgrade work is being planned during weekend night time hours when passenger trains are not running. This is to minimise any disruption to public transport customers.

Activities to take place will include:

- **10pm Saturday 13 June to 6am Sunday 14 of June 2020**
10pm Saturday 27 June to 6am Sunday 28 of June 2020
These weekends will be utilised to carry out electrical upgrade work on Platform 2. Work will be completed inside the station building and is not expected to be noisy.
- **7am to 6pm on Saturdays for the month of June**
This time will be utilised for general construction work in and around the station during daytime hours only. These are not expected to be noisy or disruptive.

Thank you for your patience as work continues on important transport infrastructure across NSW.

If you would like to be added to the project distribution list, or for more information on the Mittagong Station Upgrade, please contact us on 1800 684 490 or email projects@transport.nsw.gov.au.
