

# Transport Access Program

## Mittagong Station Upgrade

### Project update

May 2020

The upgrade at Mittagong Station is being delivered as part of the Transport Access Program, a NSW Government initiative to provide a better experience for public transport customers by delivering accessible, modern, secure and integrated transport infrastructure across the state.

### Upcoming work

During May, work activities will include:

- finishing concreting work for the lift shaft
- installing steel structure for new lifts
- electrical work for operations and existing station buildings
- upgrade of station amenities
- modification work to existing pedestrian footbridge
- continuing with the service route installation
- starting installation of light footings and poles on Regent Street and Railway Parade forecourt.

### Extended construction hours

To support the industry and continue the delivery of critical infrastructure, the NSW Government has introduced new rules allowing construction sites to operate on weekends and public holidays. Standard construction hours are now 7am to 6pm every day, including public holidays. These changes have been made to facilitate social distancing on construction sites and support the health and wellbeing of workers.

For more information call **1800 684 490**,  
Email [projects@transport.nsw.gov.au](mailto:projects@transport.nsw.gov.au) or visit [transport.nsw.gov.au/mittagong](http://transport.nsw.gov.au/mittagong)  
For urgent enquiries or complaints regarding construction activities, please call 24 hours **1800 775 465**

Transport for NSW understands extending construction hours to weekends and public holidays may cause disruption for the community but all efforts will be made to minimise impacts where possible and ensure strict environmental conditions relating to noise, vibration and dust management are adhered to.

## Weekend work

Station upgrade work is being planned during the scheduled Australian Rail Track Corporation (ARTC) trackwork maintenance weekends.

Activities to take place will include:

- **From 6am on Saturday 9 May to 10pm on Sunday 10 May**  
Civil, electrical and mechanical installation of services to station. This weekend will be used for station services and platform building work while the station is not in use by the public.
- **12pm on Saturday 30 May to 12pm on Sunday 31 May**  
Installation of the steel structure for new lifts. This will be completed using a large crane to lift in the structures. **This will result in the temporary closure of the station footbridge during this time. The level crossing will remain open for pedestrians to access the platforms and cross the rail lines .**

Some of this work may be noisy and measures will be implemented to reduce noise, including turning off vehicles when not in use, using non-tonal reversing beepers, stopping work to allow for regular respite periods and monitoring noise levels.

Up to four parking spaces (two on each side of the station) may be temporarily unavailable during the two weekends.

Thank you for your patience as work continues on important transport infrastructure across NSW.

If you would like to be added to the project distribution list, or for more information on the Mittagong Station Upgrade, please contact us on 1800 684 490 or email [projects@transport.nsw.gov.au](mailto:projects@transport.nsw.gov.au).
