

Transport Access Program Narara Station Upgrade Have your say

Artist's impression of the proposed Narara Station Upgrade, subject to detailed design

The NSW Government is improving accessibility at Narara Station

Planning is underway to improve accessibility at Narara Station. From **5 - 19 August 2020** the community is invited to provide feedback on the Review of Environmental Factors.

Community feedback will help Transport for NSW understand what is important to customers and the community.

Why an upgrade is needed at Narara Station

Narara Station does not currently meet key requirements of the Commonwealth Disability Discrimination Act 1992 (DDA) and the Disability Standards for Accessible Public Transport 2002 (DSAPT).

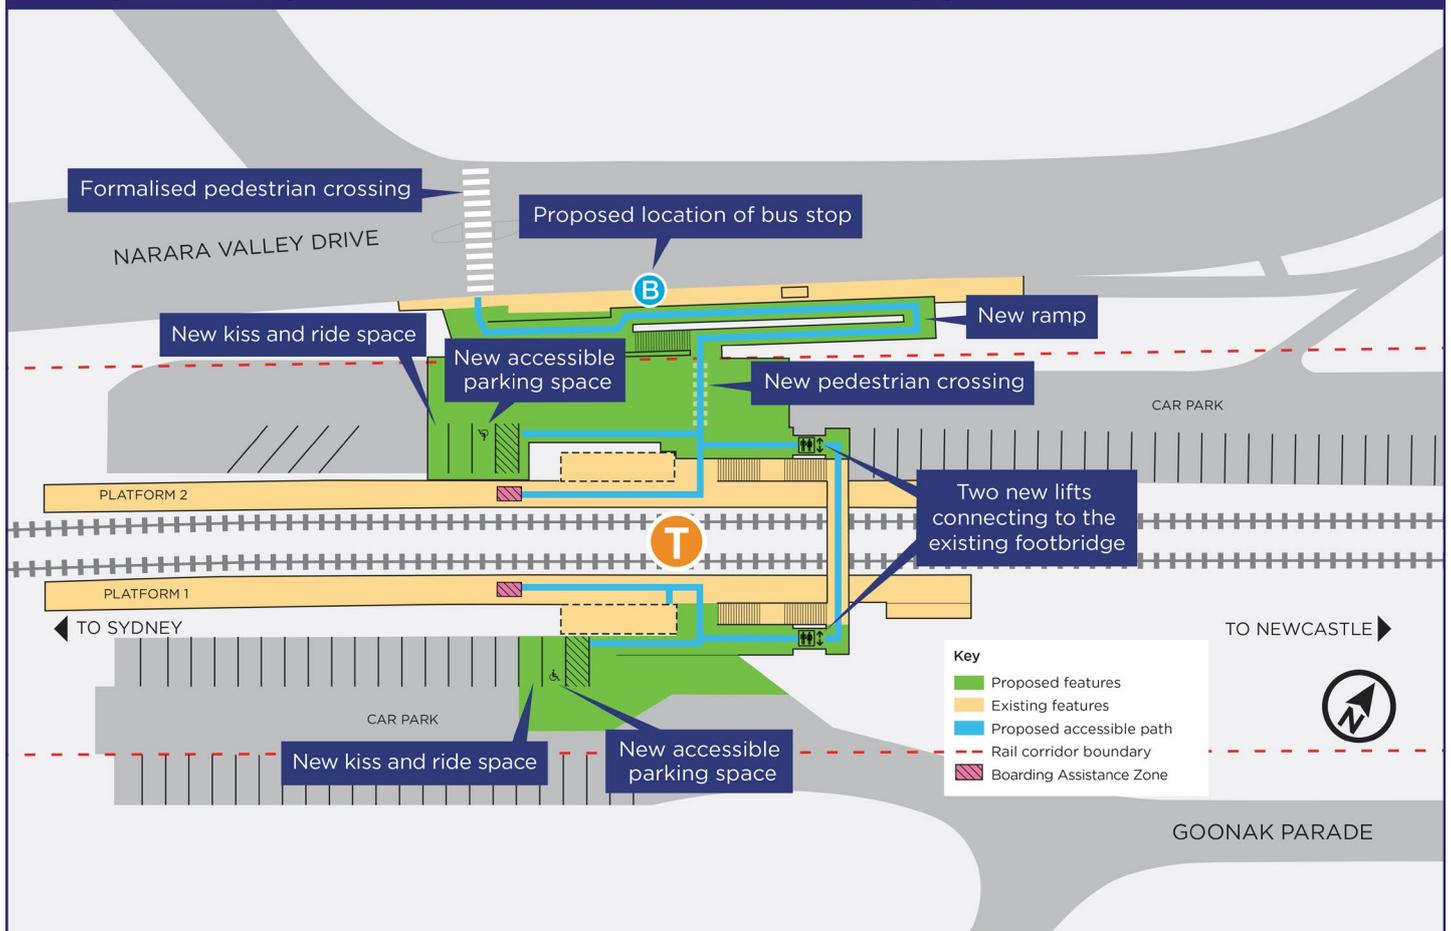

The upgrade to Narara Station will provide lifts and footpath upgrades to provide access between the platforms, footbridge and bus stop on Narara Valley Drive.

Upgrading the station precinct will make it accessible to those with a disability, limited mobility, parents/carers with prams and customers with luggage.

For more information call **1800 684 490**

Email projects@transport.nsw.gov.au or visit transport.nsw.gov.au/narara

Proposed Key Features of the Narara Station Upgrade

Key features of the proposal, subject to detailed design

Key features include

- two new lifts connecting the platforms to the existing footbridge
- a new accessible parking space and kiss and ride space in both commuter car parks
- a new accessible path from the station to Narara Valley Drive
- upgrade of the Goonak Parade entrance
- formalised pedestrian crossing on Narara Valley Drive
- relocation of the existing southbound bus stop on Narara Valley Drive
- formalised Boarding Assistance Zones on each platform
- upgrade of lighting and electrical infrastructure, CCTV, public address systems and signage.

Have your say

The Review of Environmental Factors (REF) is on public display from **5 - 19 August 2020**. Community feedback is invited during this time.

To view the REF, please scan the QR code or visit www.transport.nsw.gov.au/narara

Feedback can be submitted by:

- emailing projects@transport.nsw.gov.au
- completing the feedback form at www.transport.nsw.gov.au/narara
- writing to
Transport Access Program - Narara Station Upgrade
Associate Director, Planning - Transport for NSW
Locked Bay 6501, St Leonards NSW 2065

Please provide your feedback by **5pm 19 August 2020**.

Your feedback will help Transport for NSW understand what is important to customers and the community.

Next steps

Subject to planning approval, construction is expected to commence in late 2020 and take up to 18 months to complete.

Development of an initial concept design for the project.

We are
here

Review of Environmental Factors prepared for public display and community feedback.

Transport for NSW reviews and responds to feedback from the community within a Determination Report.

Determination made whether project proceeds or not, detailing any changes to be made to the project scope.

Construction commences.

COVID-19 social distancing measures

Under normal circumstances Transport for NSW would hold community information sessions at the station. We regret that due to COVID-19 social distancing measures, this is not possible.

We are still available by phone, email and online meetings and look forward to hearing your questions and feedback that way.

If you have any questions, please call the Project Infoline on **1800 684 490** or email projects@transport.nsw.gov.au

Review of Environmental Factors

The Review of Environmental Factors is a planning document outlining the proposed work, potential impacts and mitigation measures.

The document includes comprehensive assessments on the existing environment, potential impacts of the project, and the proposed mitigation measures for things such as traffic and transport, biodiversity, noise and vibration, visual impacts and heritage.

Construction timeframes

Major projects in and around the rail corridor like station upgrades are complex and require careful planning. Preparation work needs to be completed before the new lifts can be installed. This includes service relocation, excavation, piling and platform work and installing new electrical services underneath the tracks.

For the safety of the community and workers, and minimise disruptions to train services, major construction activities are required to be completed during scheduled rail shutdown periods when trains don't run.

This means station upgrades generally take longer to build than other construction projects outside the rail corridor.

Transport Access Program

This project is being delivered as part of the Transport Access Program, a NSW Government initiative to provide a better experience for public transport customers by delivering accessible, modern, secure and integrated transport infrastructure. As part of this program, the Narara Station Upgrade will provide a station that is accessible to those with a disability, limited mobility, and parents/carers with prams and customers with luggage.

Station Upgrades on the Central Coast

Planning and delivery of upgrades at other stations on the Central Coast, as part of the Transport Access Program, is underway.

Work commenced in July 2020 on upgrades at Ourimbah and Niagara Park stations. Planning is also underway for upgrades at Lisarow, Point Clare and Tuggerah Stations.
