

Transport Access Program

Niagara Park Station Upgrade

Have your say

Artist's Impression of the proposed Niagara Park Station upgrade, subject to detailed design

The NSW Government is improving accessibility at Niagara Park Station

Planning is underway to improve accessibility at Niagara Park Station. From **20 May – 3 June 2020** the community is invited to provide feedback on the Review of Environmental Factors. Community feedback will help Transport for NSW understand what is important to customers and the community.

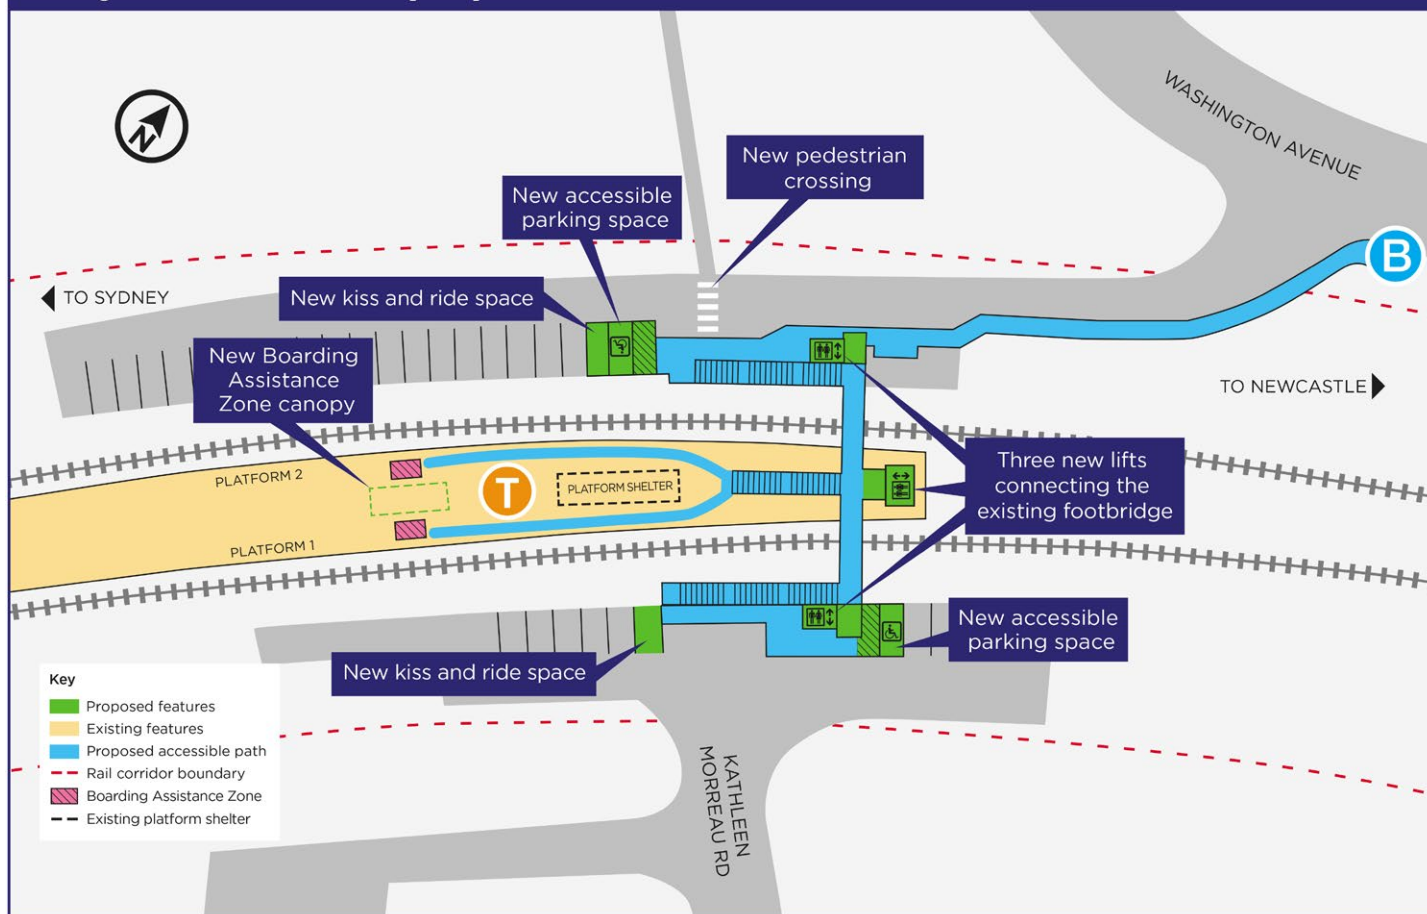

Why accessibility upgrades are needed at Niagara Park Station

Currently Niagara Park Station is accessible via stairs that don't meet Disability Standards for Accessible Public Transport requirements. Upgrading the station precinct will make Niagara Park accessible to those with a disability, limited mobility, parents/carers with prams and customers with luggage.

For more information call 1800 684 490

Email projects@transport.nsw.gov.au or visit transport.nsw.gov.au/niagarapark

Key features of the proposal

Key features include

- three new lifts connecting the platform and commuter car parks to the existing footbridge
- a new pedestrian crossing across the Washington Avenue commuter car park connecting to the path to Niagara Park Shopping Centre
- five new bicycle hoops
- a new accessible parking space and kiss and ride space in both commuter car parks
- a new accessible path from the station to the bus stop on Railway Crescent
- a new canopy over the proposed Boarding Assistance Zone
- platform regrading
- safety and security upgrades including lighting, CCTV, and wayfinding.

Have your say

The Review of Environmental Factors is on public display from **Wednesday 20 May 2020** until **Wednesday 3 June 2020**, and community feedback is invited during this time.

To view the REF, please scan the QR code or visit:

- www.transport.nsw.gov.au/niagarapark

Feedback can be submitted by:

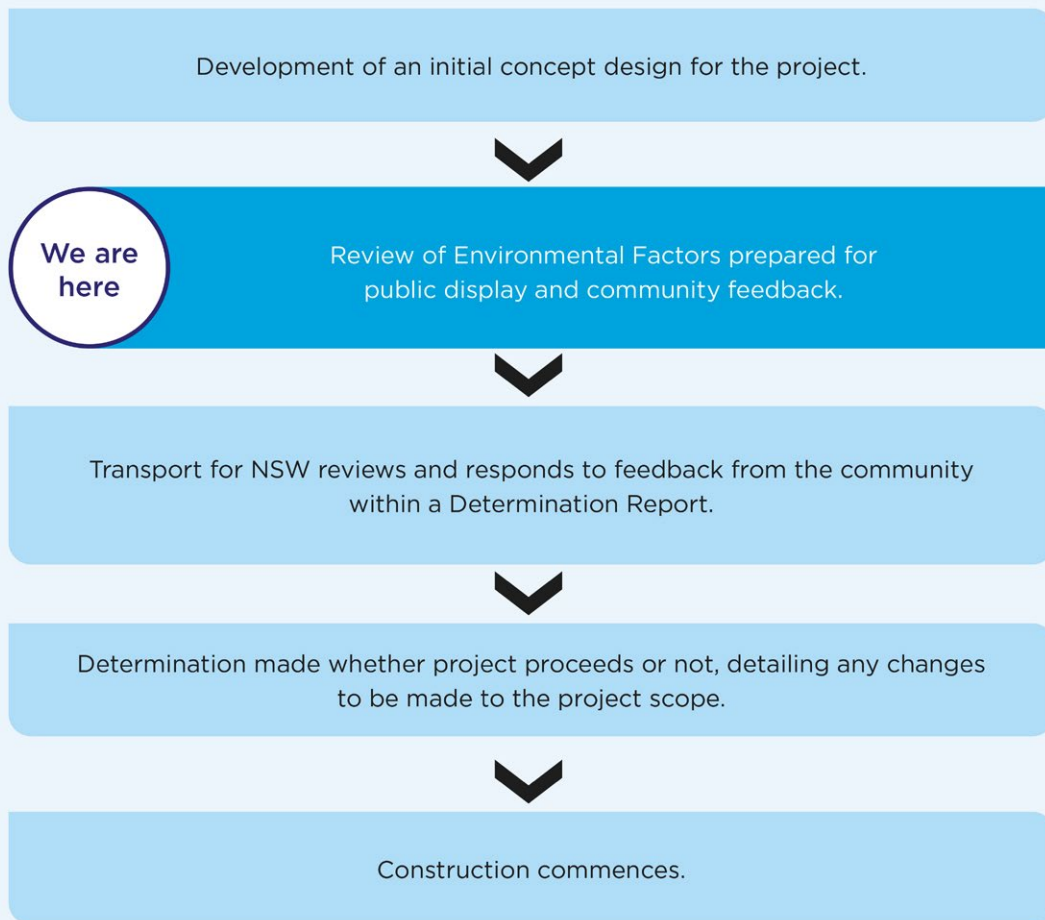

- emailing projects@transport.nsw.gov.au
- writing to **Transport Access Program – Niagara Park Station Upgrade**
Associate Director, Planning – Transport for NSW
Locked Bag 6501, St Leonards NSW 2065
- completing the feedback form at www.transport.nsw.gov.au/niagarapark

Please provide your feedback by **5pm 3 June 2020**.

Your feedback will help Transport for NSW understand what is important to customers and the community.

Next steps

Subject to planning approval, construction is expected to commence in late 2020 and take up to 18 months to complete.

COVID-19 social distancing measures

Under normal circumstances Transport for NSW would hold community information sessions at the station. We regret that due to COVID-19 social distancing measures, this is not possible. We are still available by phone and email and look forward to hearing your questions and feedback that way.

If you have any questions, please call the Project Infoline on **1800 684 490** or email projects@transport.nsw.gov.au.

Review of Environmental Factors

The Review of Environmental Factors is a planning document outlining the proposed work, potential impacts and mitigation measures.

The document includes comprehensive assessments on the existing environment, potential impacts of the project, and the proposed mitigation measures for things such as traffic and transport, biodiversity, noise and vibration, visual impacts and heritage.

Transport Access Program

This project is being delivered as part of the Transport Access Program, a NSW Government initiative to provide a better experience for public transport customers by delivering accessible, modern, secure and integrated transport infrastructure. As part of this program, the Niagara Park Station Upgrade will provide a station that is accessible to those with a disability, limited mobility, and parents/carers with prams and customers with luggage.

Construction timeframes

Major projects in and around the rail corridor like station upgrades are complex and require careful planning. Preparation work needs to be completed before the new lifts can be installed. This includes service relocation, excavation, piling and platform work and installing new electrical services underneath the tracks.

For the safety of the community and workers, and minimise disruptions to train services, major construction activities are required to be completed during scheduled trackwork weekends when trains are not running.

This means station upgrades generally take longer to build than other construction projects outside the rail corridor. Thank you for your patience as we work towards delivering this important project.

This document contains important information about public transport projects in your area. If you require the services of an interpreter, please contact the Translating and Interpreting Service on **131 450** and ask them to call Transport for NSW on **(02) 9200 0200**. The interpreter will then assist you with translation.
