Power Supply Upgrade Program
Gosford to Wyong

COMMUNITY NOTIFICATION

June 2020

Transport for NSW is upgrading electrical infrastructure as part of the Power Supply Upgrade Program, which is designed to meet expected power requirements for Sydney’s future rail network and new fleet of air-conditioned trains.

Weekend work
Gosford Station

We will be working inside the rail corridor adjacent to Riou Street, Gosford between 6am and 6pm on Saturday 6 and Sunday 7 June to construct concrete footings for new overhead wire structures. Tree trimming and removal will also take place (subject to approval). Traffic controllers will be in place adjacent to the rail gates on Riou Street, Gosford, to manage pedestrians safely around machinery operating on the footpath.

Wyong Station

At Wyong Station adjustment to safety screens will be carried out between 6am and 6pm on Saturday 6 and Sunday 7 June. The work crew will be on the Wyong Station Footbridge, however pedestrian access will be maintained at all times. Access into the rail corridor will be via the rail gates on the Pacific Highway (near where River Road meets Panonia Road), Wyong.

To ensure the safety of our customers and staff, this work will be completed during a scheduled Sydney Trains trackwork weekend. Train services will be affected during weekend work. Please contact Transport Info on 131 500 or visit transportnsw.info for information about replacement bus services.

What you may notice

Between 7am and 6pm on Thursday 4 and Friday 5 June, temporary site facilities and equipment will be delivered into the rail corridor via the rail gates on Riou Street, Gosford.
Between 7am and 6pm, from Thursday 4 to Friday 19 June, machinery, excavated material and equipment will be delivered to and from the rail corridor via the rail gates on Glenrock Parade, Tascott.

Construction equipment

Equipment to be used includes cherry pickers, vacuum trucks, concrete truck, concrete pump, cranes, chainsaws, chipper, winch, work vehicles, and various hand and power tools.

Transport for NSW is committed to minimising noise impacts on the community. We switch off equipment when it is not being used, place equipment as far away from properties as possible and monitor our work activities to make sure noise levels are being managed effectively.

Keeping the community informed

If you would like to speak with the project team about this work, please contact us through the details provided below. Thank you for your understanding during this work.
