

Transport Access Program

Petersham Station Upgrade

Community notification

August 2020

Work continues on Petersham Station Upgrade

The Petersham Station Upgrade will improve accessibility at Petersham Station by providing two new lifts connecting the Terminus Street entrance to the footbridge and station platform. The upgrade will also provide a new access ramp and stairs to the footbridge and bicycle parking on Trafalgar Street, as well as an accessible parking space, bicycle parking and a formalised Kiss and Ride zone on Terminus Street.

Construction for the Petersham Station Upgrade commenced in June, and work was undertaken to remove a portion of the rail corridor wall on Terminus Street in July.

Construction activities will continue in August and include:

- service relocation and investigations on the station platform and around the station precinct
- demolition of rail corridor wall and footings on Terminus Street in preparation for the new lift lobby
- further site establishment activities on Terminus Street (within the existing construction work area).

Upcoming night work

To ensure the safety of customers and workers, some work will need to be undertaken during Sydney Trains scheduled trackwork weekends when train services don't operate and the station is closed.

The pedestrian footbridge across the station will remain open during this time. For up to date information about train services during these times please visit transportnsw.info or call **131 500**.

Dates	Work hours	Location	Activities
Saturday 1 August Sunday 2 August Monday 3 August	6am Saturday until 2am Monday	Station platform and tracks	Relocation of services on the platform and within the station building, and installation of service supports. Work during this period will involve use of mobile plant, generators and hand tools.

What you may notice

Other equipment to be used in construction activities throughout August include excavators, delivery trucks, concrete saws and hand tools.

Where possible, measures will be implemented to reduce noise, including turning off vehicles when not in use, monitoring noise and using non-tonal reversing beepers.

Temporary access changes

Single lane closures may occur temporarily during this period to accommodate construction vehicles making deliveries and enable removal of rock/spoil from the area.

Traffic control and/or signage will be in place to help pedestrians and motorists with the temporary changes.

Construction hours

To support the construction industry and continue the delivery of important infrastructure, the NSW Government has introduced new rules allowing construction sites to operate on weekends and public holidays.

Standard construction hours are from 7am to 6pm every day, including public holidays. These changes have been made to facilitate physical distancing on construction sites and support the health and wellbeing of workers.

We understand extending construction hours to include weekends and public holidays may cause disruption, but all efforts will be made to minimise impacts where possible and ensure strict environmental conditions relating to noise, vibration and dust management are adhered to.

Keep in touch

If you would like to be added to the project distribution email list, or for more information on the Petersham Station Upgrade, please contact us on **1800 684 490** or email projects@transport.nsw.gov.au.
