

Transport Access Program

Pymble Station Upgrade

Have your say

Artist's impression of the proposed Pymble Station Upgrade, subject to change during detailed design

The NSW Government is improving accessibility at Pymble Station

Planning is underway to improve accessibility at Pymble Station to make it easier for people with additional mobility requirements, parents/carers with prams and customers with luggage. Feedback on the early concept design is invited until **7 October 2020**.

Key features of the proposed upgrade include:

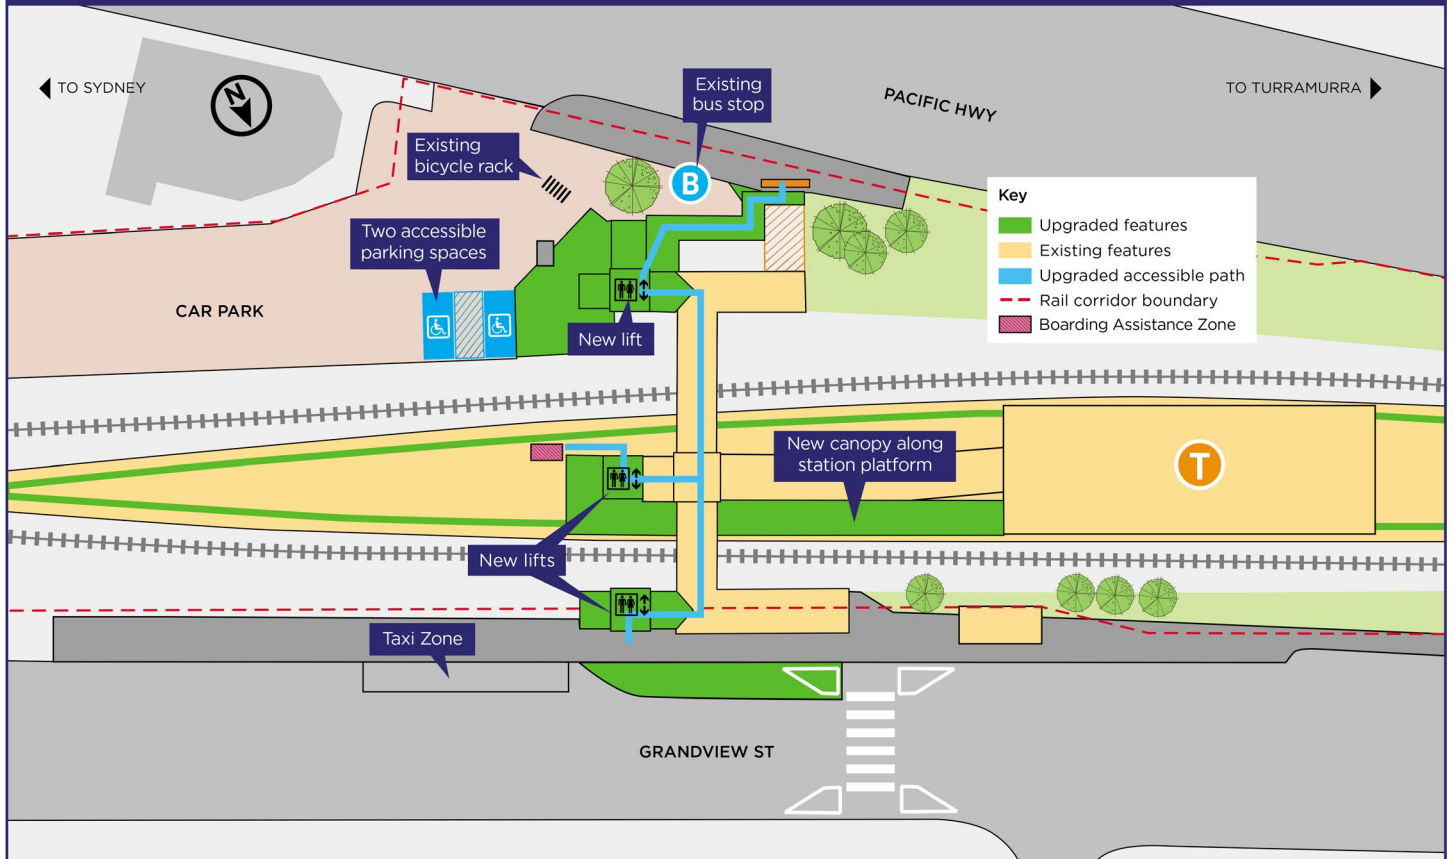

- three new lifts to connect Pacific Highway, Grandview Street and the station platforms to the existing footbridge
- a new forecourt on the Pacific Highway side, connecting the existing footpath and bus stop to the new lift
- improvements to accessible parking spaces near the Pacific Highway lift entrance
- improvements to amenities including a new family accessible toilet and a unisex ambulant toilet
- footpath upgrades on Grandview Street
- new handrails and treads on stairs where required
- additional CCTV and lighting.

Further information including additional images of the proposed upgrade can be found on the project website at transport.nsw.gov.au/pymble

How to provide feedback on the concept design

View the plans and fill out the online feedback form at transport.nsw.gov.au/pymble. You can also provide feedback by emailing projects@transport.nsw.gov.au or calling **1800 684 490**.

Under normal circumstances Transport for NSW would hold community information sessions at the station. We regret that due to the COVID-19 social distancing measures, we can't. We are still available by phone and email and look forward to hearing your questions that way.

Feedback on the concept design can be provided until **7 October 2020**. Feedback from the community will help inform the Review of Environmental Factors (REF), which will be placed on public display in the coming months. We will keep the community informed about opportunities to provide feedback during the public display of the REF.

Why accessibility upgrades are needed at Pymble Station?

Pymble Station does not currently meet key requirements of the Commonwealth Disability Discrimination Act 1992 (DDA) and the Disability Standards for Accessible Public Transport 2002 (DSAPT).

Upgrading the station precinct will make Pymble Station accessible to transport customers with a disability, limited mobility, parents/carers with prams and customers with luggage.

Transport Access Program

This project is being delivered as part of the Transport Access Program, a NSW Government initiative to provide a better experience for public transport customers by delivering accessible, modern, secure and integrated transport infrastructure.

This document contains important information about public transport projects in your area. If you require the services of an interpreter, please contact the Translating and Interpreting Service on **131 450** and ask them to call Transport for NSW on **(02) 9200 0200**. The interpreter will then assist you with translation.
