

# Redfern Station Upgrade

## New Southern Concourse

### COMMUNITY NOTIFICATION

JULY 2020

The Redfern Station Upgrade – New Southern Concourse will provide a station that is accessible to those with a disability, limited mobility, parents / carers with prams and customers with luggage. The New Southern Concourse will improve accessibility to public transport and help people move around the growing area and is the first step in the renewal of the Redfern North Eveleigh Precinct.

### Upcoming work

From now until December 2020, minor work will occur at Redfern Station to inform the design of the station upgrade, remove redundant materials and make adjustments to power cables and overhead wiring. These work activities will primarily be located within the rail corridor and undertaken during standard working hours 7am to 6pm Monday to Friday and 8am to 1pm Saturday.

In addition to activities during standard working hours, some weekend and night work will occur in July during a scheduled trackwork weekend.

Dates	Work hours	Location	Activities
Saturday 11 to Monday 13 July	5am Saturday to 2.30am Monday	Platforms 1, 2/3	Excavation of a new cable route within the platform, installing new pits and conduits Backfilling and compacting the excavated areas.

### What you may notice

In advance of the work listed above, plant and equipment will be delivered into the rail corridor via various rail access gates in Redfern, Eveleigh and Erskineville including Gibbons Street, Carriageworks Way, Burren Street and Erskineville Road.

Equipment to be used includes cherry pickers, concrete saws, service scanners, vacuum trucks, flatbed crane trucks, drilling rigs, excavators, plate compactors, lighting towers, line marking paint, work vehicles and various hand and power tools.

If you would like to speak with the project team about this work, please contact us by calling **1800 684 490** or by emailing us at **projects@transport.nsw.gov.au**.

## Temporary changes to parking in your area

**From 3pm Monday 13 July to 6pm Wednesday 15 July, up to three spaces on Marian Street and six spaces on Little Eveleigh Street will be temporarily unavailable** to allow a drill rig to be set up. This will be used to undertake corehole investigations to better understand the roads' subsurface, which will help inform design.

The drilling will be undertaken during standard working hours (7am to 6pm Tuesday 14 and Wednesday 15 July) and traffic control will be in place to help pedestrians, cyclists and vehicles safely navigate around the works area. **Access to driveways will remain.**

### Why are we doing this work now?

Completing this work allows the project team to continue progressing the design and, subject to planning approval, start construction sooner, reducing the duration of the project. For the safety of staff and customers some of this work needs to be completed during scheduled trackwork weekends when trains are not running. For up to date information about services during these times visit [transportnsw.info](http://transportnsw.info) or call **131 500**.

This document contains important information about public transport projects in your area. If you require the services of an interpreter, please contact the Translating and Interpreting Service on **131 450** and ask them to call Transport for NSW on **(02) 9200 0200**. The interpreter will then assist you with translation.
