

Transport Access Program Roseville Station Upgrade Planning Approval

Artist's impression of Roseville Station Upgrade, subject to detailed design

The NSW Government is improving accessibility at Roseville Station

Planning approval has been granted for the Roseville Station Upgrade. The approval follows the public display of the Review of Environmental Factors from 5-19 June 2020, and preparation of a Determination Report.

The Determination Report and planning approval conditions are available at www.transport.nsw.gov.au/roseville. The proposed upgrade received 36 submissions during the public display period. Transport for NSW would like to thank the community for their feedback during the planning process.

Project overview

Transport for NSW is upgrading Roseville Station to make it easier for everyone to access, including people with a disability or limited mobility, parents/carers with prams, and customers with luggage.

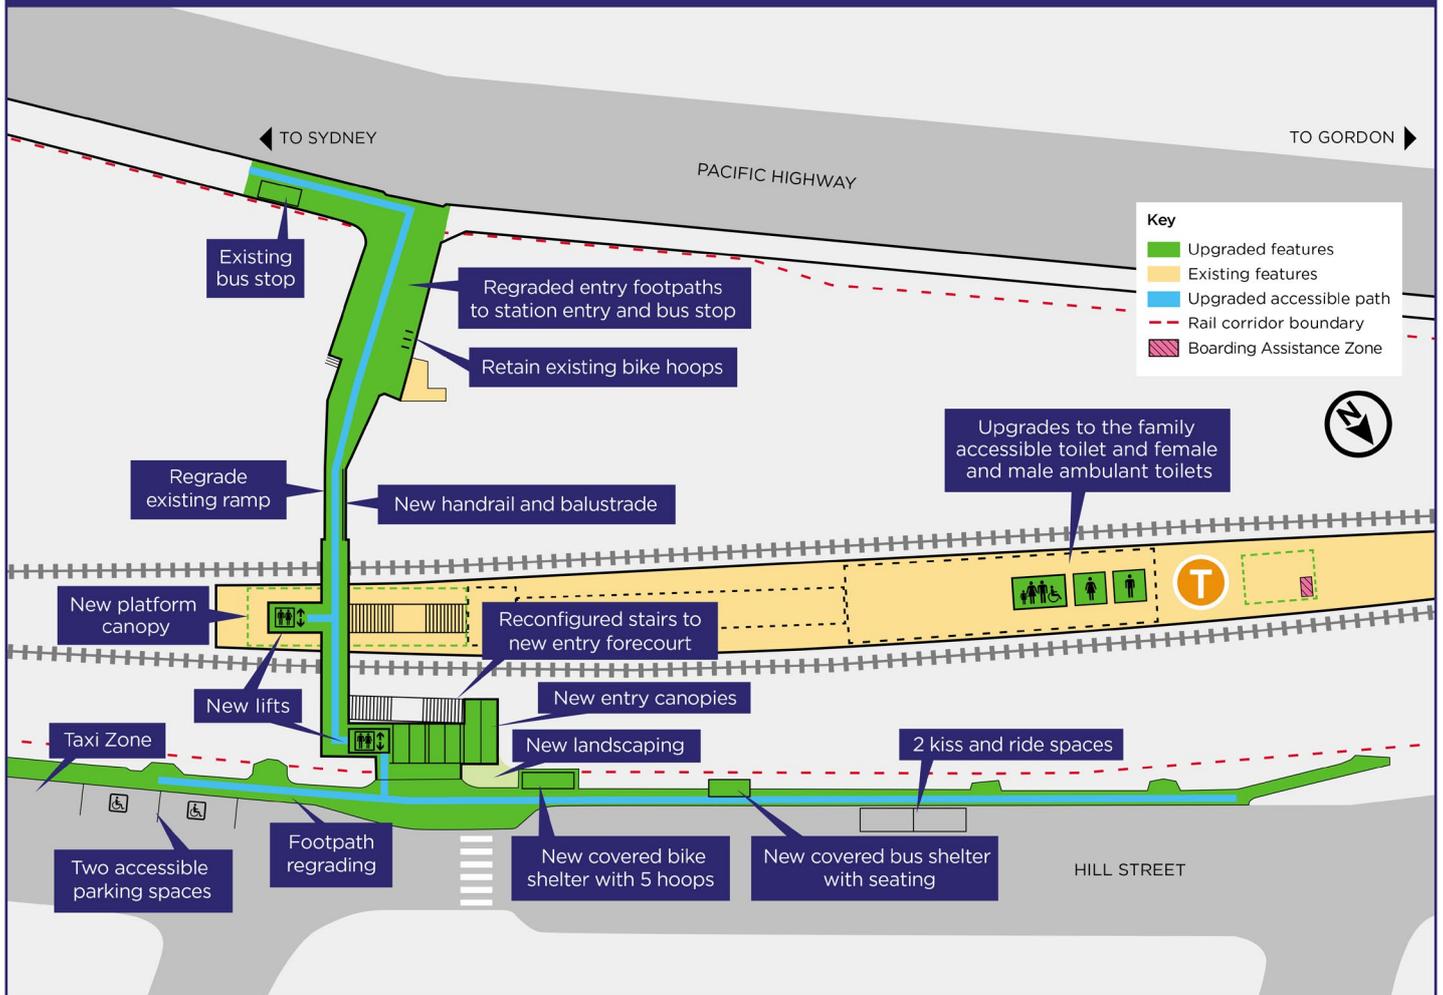

The project includes:

- two lifts to provide access between Hill Street, the existing footbridge and the station platform
- accessible pathways to the station to provide access between the Pacific Highway and the existing footbridge
- canopies at the Hill Street station entrance and the platform boarding assistance zone
- an interchange zone including accessible parking, taxi zone, kiss and ride bay, bus shelter and increased bike parking on Hill Street and Pacific Highway
- improved amenities including a male and female ambulant toilet and family accessible toilet.

Upcoming work and site establishment

From **Monday 20 July 2020** site establishment work will begin and continue in August and September.

Activities include:

- site office set up
- installing temporary fencing around the platform canopy at the base of the stairs, Hill Street entrance and carpark
- minor vegetation pruning
- surveying and investigation work
- relocating services from the existing platform canopy.

Equipment to be used includes surveying equipment, generators, trucks, excavator, scaffolds and hand tools.

Please see the map for locations of work areas.

Transport Access Program

Roseville Station Upgrade is part of the Transport Access Program, a NSW Government initiative to provide a better experience for public transport customers by delivering accessible, modern, secure and integrated transport infrastructure.

Weekend work – 18 and 19 July 2020

Weekend work will take place from **6am to 7pm on Saturday 18 and Sunday 19 July 2020.**

For the safety of our workers and to minimise impacts on customers this work will be carried out during a scheduled Sydney Trains track work period, when trains aren't running.

Activities will include:

- service investigation and survey work
- overhead wiring investigations
- exposure of bridge footings and structural assessments
- minor vegetation pruning.

The pedestrian footbridge will remain open during this period.

This work will involve a truck-mounted crane, elevated work platforms, vacuum truck, excavators and hand tools.

Measures will be used wherever possible to reduce noise including turning off equipment when not in use, monitoring noise, using non-tonal reversing beepers and stopping work for respite periods.

Please visit www.transportnsw.info or call **131 500** for up to date information regarding service updates and replacement buses during this time.
