

Transport Access Program

Roseville Station Upgrade

Project update

October 2020

Project overview

Transport for NSW is upgrading Roseville Station to make it easier to access, especially for people with a disability or limited mobility, parents/carers with prams, and customers with luggage.

The project includes two new lifts and upgraded footpaths connecting the station to Hill Street and Pacific Highway entrances. There will also be formalised accessible parking, a taxi zone, kiss and ride bay, bus shelter and increased bike parking.

The station's facilities will also be upgraded to include a male and female ambulant toilet and a family accessible toilet, new canopies, handrails, wayfinding signage, improved station lighting, security and communication systems. Work is expected to take around 18 months to complete.

For more information call **1800 684 490**,

Email projects@transport.nsw.gov.au or visit transport.nsw.gov.au/Roseville

For urgent enquiries or complaints regarding construction activities, please call 24 hours **1800 775 465**.

Upcoming work

Work will continue in October and includes:

- hoarding installation at the Hill Street station entry and on the station platform
- bridge work including repainting and replacing the stair treads where required
- tree removal at the Hill Street station entrance
- service relocations throughout the station precinct
- concrete and piling work for the new lifts

Equipment to be used includes surveying equipment, a demolition saw, generators, trucks, excavators and hand tools. Traffic control may be in place intermittently to ensure safe pedestrian and vehicle movements around the worksite. There may be temporary changes to traffic flow and parking on Hill Street and Pacific Highway which will be managed by traffic control where required.

Weekend work in October 2020

For the safety of our workers, pedestrians and motorists, work will take place continuously on **two weekends** in October:

- **6pm Friday 16 October to 4am Monday 19 October**, and
- **6pm Friday 23 October to 4am Monday 26 October**.

Some of this work will take place in the rail corridor and needs to be carried out during a scheduled Sydney Trains track work period when trains aren't running.

Work will include:

- vegetation pruning and removal in the rail corridor
- tree trimming and vegetation removal near the Pacific Highway station entrance
- utilities installation
- hoarding installation on the platforms and at the Hill Street station entrance
- piling, excavation and shoring work for the new lifts
- footbridge refurbishment and steel work
- canopy demolition at the station entrance.

Equipment to be used includes trucks, chainsaws, elevated work platform, excavator, piling rig, scaffolding, vacuum trucks and hand tools.

This work will be noisy at times. Wherever possible measures to reduce noise will be implemented including scheduling noisy work during daytime hours, turning off vehicles and equipment when not in use, monitoring noise, using non-tonal reversing beepers and acoustic barriers.

We apologise for the inconvenience and thank you for your patience during this important work.

Please visit www.transportnsw.info or call **131 500** for up to date information regarding service updates and replacement buses during this time.

Temporary pedestrian access changes

The Roseville Station footbridge and a portion of the Hill Street footpath will be temporarily **closed to pedestrians** while weekend work is carried out in October 2020. The footbridge and footpath will be closed:

- **2am Saturday 17 October until 10pm Sunday 18 October**, and
- **2am Saturday 24 October until 2pm Sunday 25 October**.

An additional temporary pedestrian crossing will be provided near Bancroft Avenue to assist pedestrians to cross the road while footpath closures are in place.

Temporary parking changes

From 5pm Thursday 15 October to 5pm on Monday 26 October 2020, up to 20 parking spaces on Hill Street (between Lord Street and Bancroft Avenue) will be unavailable to allow the delivery of plant and equipment required for weekend work in October 2020.

During this time the taxi rank and kiss & ride will be temporarily relocated to the other side of the station entry (opposite Roseville Pharmacy).

Vegetation removal

Clearing and vegetation removal will take place in the rail corridor in preparation for the installation of above ground services in the coming months. Every effort will be made to maintain vegetation where possible to retain screening to the rail corridor.

The trees located on either side of the Hill Street station entrance are scheduled to be removed during October as well as some tree trimming and removal at the Pacific Highway station entrance. The proposal to remove trees is in line with the planning approval received for the project and is essential in order to build the new lifts. Please see map below for more information about the trees and vegetation that need to be removed.

Location map

Roseville Station work activities - October 2020

Construction hours

Standard construction hours are **7am to 6pm Monday to Friday** and **8am to 1pm on Saturdays**.

For the safety of staff, rail customers and the community, some work will be completed outside standard construction hours. Nearby residents and businesses will be notified before any work outside these hours takes place.

Keep in touch

We will continue to keep the community informed with regular project notifications and frequent online updates published to the project website www.transport.nsw.gov.au/roseville.

If you would like to be added to the project distribution list, or for more information on the Roseville Station Upgrade, please contact us on **1800 684 490** or email projects@transport.nsw.gov.au.

For all urgent enquiries or complaints regarding construction activities, please call our 24-hour Construction Response Line on **1800 775 465**.
