

Transport Access Program

Roseville Station Upgrade

Have your say

Artist's impression of the proposed Roseville Station Upgrade, subject to detailed design

The NSW Government is improving accessibility at Roseville Station

Planning is underway to improve accessibility at Roseville Station. From **5 – 19 June 2020** the community is invited to provide feedback on the Review of Environmental Factors. Community feedback will help Transport for NSW understand what is important to customers and the community.

Why accessibility upgrades are needed at Roseville Station

Currently Roseville Station is accessible via stairs that don't meet Disability Standards for Accessible Public Transport requirements. Upgrading the station precinct will make Roseville Station accessible to those with a disability, limited mobility, parents/carers with prams and customers with luggage.

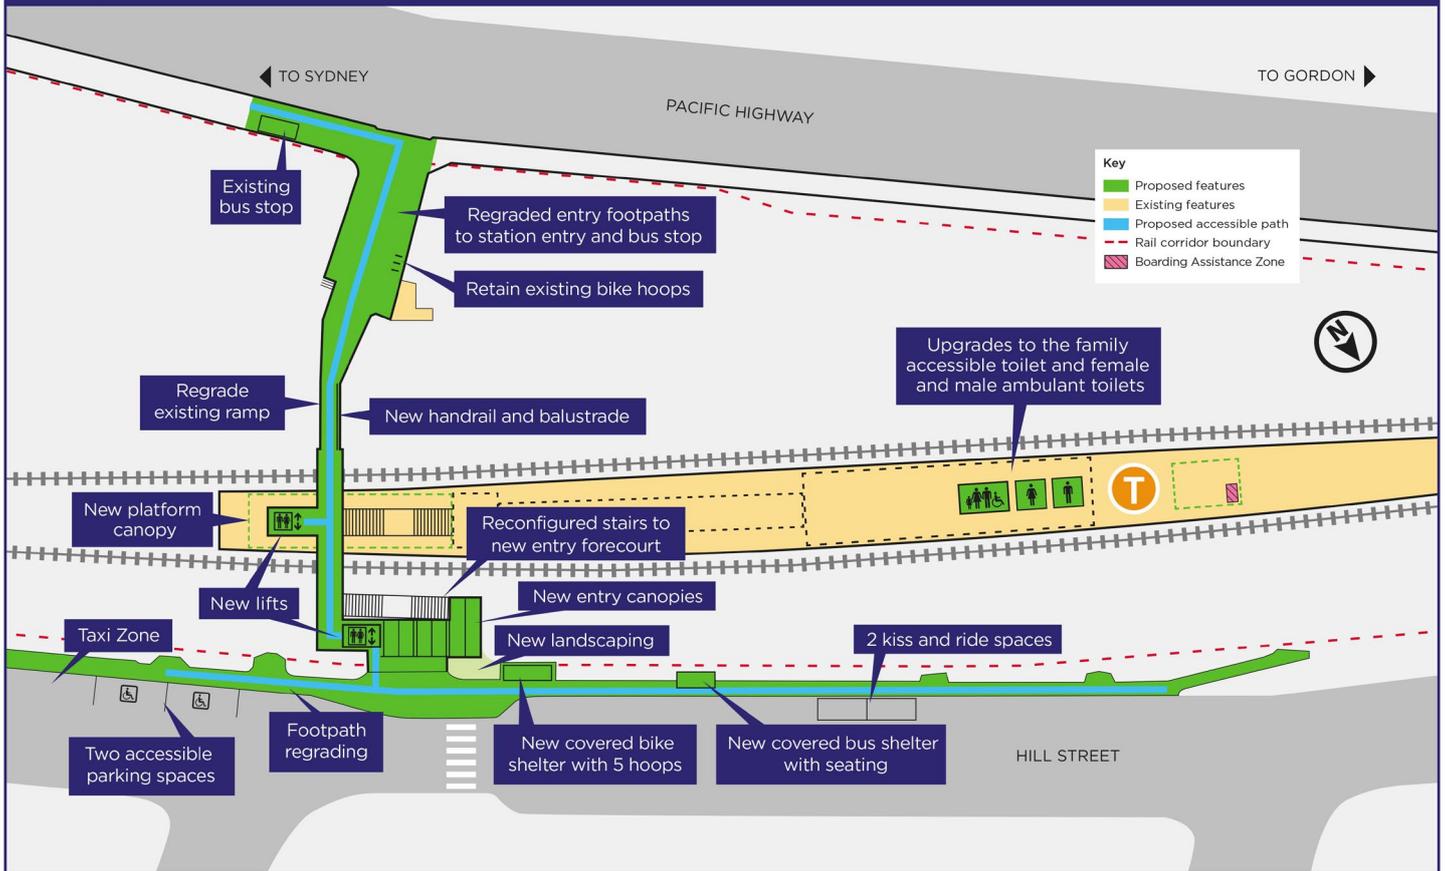

Key features include:

- upgrading the existing footbridge including new screens and handrails
- two lifts to provide access between Hill Street, the existing footbridge and the station platform
- accessible pathways to the station to provide access between the Pacific Highway and the existing footbridge
- canopies at the Hill Street station entrance and the platform boarding assistance zone
- an interchange zone including accessible parking, taxi zone, kiss and ride bay, bus shelter and increased bike parking on Hill Street and Pacific Highway
- improved amenities including a male and female ambulant toilet and family accessible toilet
- improved CCTV and lighting.

Have your say

The Review of Environmental Factors is on public display from 5 - 19 June 2020, and community feedback is invited during this time.

To view the REF, please scan the QR code or visit:

- www.transport.nsw.gov.au/roseville

Feedback can be submitted by:

- emailing projects@transport.nsw.gov.au
- writing to **Transport Access Program - Roseville Station Upgrade**
Associate Director, Planning - Transport for NSW
Locked Bag 6501, St Leonards NSW 2065
- completing the feedback form at www.transport.nsw.gov.au/roseville

Please provide your feedback by **5pm 19 June 2020**.

Your feedback will help Transport for NSW understand what is important to customers and the community.

COVID-19 social distancing measures

Under normal circumstances Transport for NSW would hold community information sessions at the station. We regret that due to COVID-19 social distancing measures, this is not possible. We are still available by phone and email and look forward to hearing your questions and feedback that way.

If you have any questions, please call the Project Infoline on **1800 684 490** or email projects@transport.nsw.gov.au

Next steps

Subject to planning approval, construction is expected to commence in late 2020 and take around 18 months to complete

Development of an initial concept design for the project.

We are here

Review of Environmental Factors prepared for public display and community feedback.

Transport for NSW reviews and responds to feedback from the community within a Determination Report.

Determination made whether project proceeds or not, detailing any changes to be made to the project scope.

Construction commences.

Review of Environmental Factors

The Review of Environmental Factors is a planning document outlining the proposed work, potential impacts and mitigation measures.

The document includes comprehensive assessments on the existing environment, potential impacts of the project, and the proposed mitigation measures for things such as traffic and transport, biodiversity, noise and vibration, visual impacts and heritage.

Previous community feedback

In January 2019, the community provided feedback on an early concept design for the Roseville Station Upgrade that included a new footbridge and station concourse.

During this consultation, we received a range of constructive feedback, including requests to keep the existing footbridge as it had important links to the station's history and complemented the town centre.

Feedback from the community was used to further develop the concept design and subsequent planning approval documentation which includes providing access to the platforms via the existing footbridge

Transport Access Program

This project is being delivered as part of the Transport Access Program, a NSW Government initiative to provide a better experience for public transport customers by delivering accessible, modern, secure and integrated transport infrastructure.

This document contains important information about public transport projects in your area. If you require the services of an interpreter, please contact the Translating and Interpreting Service on **131 450** and ask them to call Transport for NSW on **(02) 9200 0200**. The interpreter will then assist you with translation.
