

# Sutherland to Cronulla Active Transport Link

Project Update

June 2020

The Sutherland to Cronulla Active Transport Link is a pedestrian and bicycle path between Sutherland and Cronulla, making walking and bike riding a more convenient, safe and enjoyable transport option. The first stage between Sutherland and Kirrawee connects key destinations such as transport interchanges, schools, residential areas and business precincts.

## Continuing work at Sutherland

Throughout June, work will continue on President Avenue between Fauna Place and the start of Pollard Park to complete the new pedestrian and bicycle path and power pole relocation.

Work will also continue at the intersection of Acacia Road and President Avenue to complete concreting, asphaltting, line marking and to reconfigure the traffic signals at the intersection.

See the map overleaf for further information.

## Night work

To minimise impacts on local traffic and to improve safety for pedestrians and workers, some work is required outside standard hours.

**We require six night shifts (6pm to 5am, weather permitting) between Wednesday 3 June and Friday 19 June 2020** to reconfigure the traffic signals at the Acacia Road intersection, concreting, asphaltting and line marking.

Residents close to the night work will be given detailed information closer to the time. Signage will also be installed to remind residents, pedestrians and motorists of pedestrian and traffic changes.

**An additional night shift is required on Sunday 21 June 2020, between 6pm and 7am** (weather permitting), to finalise the power pole relocation on Fauna Place.

## Work impacts

The work to reconfigure and rebuild the traffic signals at Acacia Road may be noisy at times, as it includes truck movements, excavating, saw-cutting, jack hammering, line marking, concreting and asphaltting.

We will implement measures to minimise impacts on the community by completing noisier works as early as possible, switching equipment off when not in use, placing equipment as far away from residential properties as possible, and monitoring our work to ensure noise levels are being managed effectively.

## Map of work areas

## Traffic changes

Temporary lane closures and traffic detours may be in place during the work. Pedestrian access will be maintained at all times.

Please keep to the speed limits and follow signs and traffic controllers' directions.

## Keeping the community informed

We will continue to keep the community informed with regular project updates. Further information is available on the project website [www.transport.nsw.gov.au/scat](http://www.transport.nsw.gov.au/scat). If you would like to be added to the project distribution list, please contact us on **1800 684 490** or email [projects@transport.nsw.gov.au](mailto:projects@transport.nsw.gov.au)

For all urgent enquiries or complaints regarding construction activities, please call our 24-hour Construction Response Line on 1800 775 465.

This document contains important information about public transport projects in your area. If you require the services of an interpreter, please contact the Translating and Interpreting Service on **131 450** and ask them to call Transport for NSW on **(02) 9200 0200**. The interpreter will then assist you with translation.
