

Transport Access Program

Thornleigh Station Upgrade

COMMUNITY NOTIFICATION

October 2020

Planning is underway for an accessibility upgrade at Thornleigh Station

The upgrade is part of the Transport Access Program, a NSW Government initiative to provide a better experience for public transport customers by delivering accessible, modern, secure and integrated infrastructure.

Survey and site investigation

To help inform the concept design for the proposed Thornleigh Station Upgrade, survey and site investigations are required to take place at the station. The investigations will be undertaken during standard working hours between **7am and 6pm from Tuesday 20 October until Friday 30 October 2020**.

Upcoming night work

Night work is required at Thornleigh Station to transport drilling equipment on and off the station platforms during the following times:

- **from 10pm Tuesday 20 October and 6am Wednesday 21 October**
- **from 10pm Wednesday 21 October and 6am Thursday 22 October**

This has been planned to take place while trains are not running to maintain the safety of workers and customers. There may be some short intermittent noise associated with this work.

Equipment used will include a small drilling rig, a generator, surveying equipment, a delivery truck, a vacuum truck and powered hand tools.

Where possible, measures will be implemented to reduce noise associated with this work, including turning off vehicles and equipment when not in use and using non-tonal reversing beepers.

We apologise for any inconvenience and thank you for your patience during this important work.
