

Transport Access Program

Thornleigh Station Upgrade

COMMUNITY NOTIFICATION

NOVEMBER 2020

Planning is underway for an accessibility upgrade at Thornleigh Station

The upgrade is part of the Transport Access Program, a NSW Government initiative to provide a better experience for public transport customers by delivering accessible, modern, secure and integrated infrastructure.

Survey and site investigation

To help inform the concept design for the proposed Thornleigh Station Upgrade, survey and site investigations are required to take place at the station. The investigations will be undertaken during standard working hours between **7am and 6pm from Wednesday 4 November until Friday 6 November 2020**.

Temporary footpath closure – Thornleigh Station

A temporary footpath closure will be in place from **7am Wednesday 4 November to 6pm Friday 6 November** between Wells Street and the station footbridge while site investigations are carried out.

Access into Thornleigh Station will be via Railway Parade or The Esplanade, Thornleigh.

Traffic control and detour signs will be in place to provide directions to pedestrians around the work site. Please see map overleaf for details.

Construction Equipment

Equipment used will include a small drilling rig, a generator, surveying equipment, a delivery truck, a vacuum truck and powered hand tools.

Where possible, measures will be implemented to reduce noise associated with this work, including turning off vehicles and equipment when not in use and using non-tonal reversing beepers.

We apologise for any inconvenience and thank you for your patience during this important work.
