

# Transport Access Program Towradgi Station Upgrade Have your say

## The NSW Government is improving accessibility at Towradgi Station

From 20 July – 3 August 2020, the community is invited to have their say on the Review of Environmental Factors.

Community feedback will help Transport for NSW understand what is important to customers and the community.

## Key features of the project

Key features of the proposed upgrade include:

- a new footbridge over the rail corridor connecting the platforms of Towradgi Station
- two new lifts which will have three stops including, ground level, platform level and footbridge level. Lift landings will also have canopies at the waiting areas
- footpath upgrades to make it easier for customers to move around the station precinct
- two accessible parking spaces and a kiss and ride zone on Weber Crescent
- new stairs between the footbridge and the platforms
- replacement of the existing station toilet with a new family accessible toilet
- replacement of platform shelters
- minor regrading and widening of the station platforms
- upgrades to CCTV and lighting, handrails, drainage works, landscaping, wayfinding and signage.
- construction of a new equipment room adjacent to Weber Crescent.

## Why accessibility upgrades are needed at Towradgi Station

As an operator of public transport under the Disability Discrimination Act 1992 (DDA), Transport for NSW is required to upgrade the station precinct and ensure equitable access is provided for all customers.

Towradgi Station does not currently meet the requirements of the federal Disability Standards for Accessible Public Transport 2002 (DSAPT).

The Standards set out minimum accessibility requirements for public transport providers and ensure that people with disability have equivalent access to public transport services.

Upgrading the station precinct will make Towradgi accessible to people with additional mobility requirements, parents/carers with prams and customers with luggage.

## Have your say

The Review of Environmental Factors is on public display from **20 July – 3 August 2020**, and community feedback is invited during this time.

To view the REF, please scan the QR code or visit:

- [transport.nsw.gov.au/towradgi](http://transport.nsw.gov.au/towradgi)

Feedback can be submitted by:

- emailing [projects@transport.nsw.gov.au](mailto:projects@transport.nsw.gov.au)
- completing the feedback form at [www.transport.nsw.gov.au/towradgi](http://www.transport.nsw.gov.au/towradgi)
- writing to **Transport Access Program – Towradgi Station Upgrade**  
Associate Director, Planning  
Transport for NSW  
Locked Bag 6501, St Leonards NSW 2065

Please provide your feedback by **5pm 3 August 2020**.

**Your feedback will help Transport for NSW understand what is important to customers and the community.**

## Review of Environmental Factors

The Review of Environmental Factors is a planning document outlining the proposed work, potential impacts and mitigation measures.

The document includes comprehensive assessments on the existing environment and expected impacts of the project and proposed mitigation measures for things such as traffic and transport, biodiversity, noise and vibration, visual impacts and heritage.

## COVID-19 social distancing measures

Under normal circumstances TfNSW would hold community information sessions at the station.

We regret that due to the COVID-19 social distancing measures, this is not possible.

We are still available by phone and email and look forward to hearing your questions and feedback that way.

This document contains important information about public transport projects in your area. If you require the services of an interpreter, please contact the Translating and Interpreting Service on **131 450** and ask them to call Transport for NSW on **(02) 9200 0200**. The interpreter will then assist you with translation.
