

Transport Access Program

Towradgi Station Upgrade

Planning approval

The NSW Government is improving accessibility at Towradgi Station

Planning approval follows the public display of the project's Review of Environmental Factors, which was held from 20 July – 3 August 2020. The project team received 13 submissions during the public display period. Each submission was considered by the project team and responded to in a Determination Report. Transport for NSW would like to thank the community for their submissions.

Feedback from the community

The key themes that emerged during the public display period included:

- support for the station upgrade and for improving accessibility at the station
- requests for additional canopies and toilet facilities
- the need for the footbridge
- visual amenity impacts of the upgrade include to Weber Park and surrounding area.

The upgrade will include:

- a new footbridge over the rail corridor connecting the platforms of Towradgi Station
- two new lifts which will have three stops including platform level, road/pedestrian level and footbridge level. Lift landings will also have canopies at the waiting areas
- new footpaths to connect Towradgi Road and Weber Crescent to the station and the new footbridge, as well as footpaths to the new accessible car spaces and kiss and ride
- two accessible parking spaces and a kiss and ride zone on Weber Crescent
- new stairs on either side of the footbridge
- replacement of the existing station toilet with a new family accessible toilet
- replacement of platform shelters
- minor regrading and widening of the station platforms
- ancillary upgrades such as upgrades to CCTV and lighting, handrails, drainage works, landscaping, wayfinding and signage.
- construction of a new station services equipment room (SSER) adjacent to Weber Crescent.

Next steps

Design and site preparation work will occur over the coming months, with major construction expected start in early 2021.

Transport for NSW develops initial concept design options for the project, including identification and consideration of environmental constraints, risks and opportunities.

Transport for NSW prepares a Review of Environmental Factors (REF) for public display and invites submissions.

Transport for NSW assesses and responds to feedback and prepares a submission report/determination report with proposed conditions to minimise environmental impacts

We are
here

Transport for NSW determines the Proposal.
*If approved conditions made available
on Transport for NSW website.*

Construction commences subject to compliance with conditions.

We will advise the local community of construction activities prior to work starting.
