

Transport Access Program

Rooty Hill Station Upgrade and Commuter Car Park

PROJECT UPDATE

JANUARY 2020

The final stages of the Rooty Hill Station Upgrade and Commuter Car Park are underway, with new features progressively opening for use by the community and customers.

The new six-storey commuter car park is open, offering Rooty Hill commuters access to approximately 750 new car spaces, including 10 dedicated electric vehicle spaces, 16 accessible spaces and 10 motorcycle spaces.

Some of the work completed over the last 12 months includes:

- ✓ Construction of a new six-storey commuter car park, accommodating 750 vehicles with solar panels on the roof powering the lift, lighting and electric vehicle charging stations
- ✓ Installation of new, wider stairs and overhead canopies to reduce congestion and protect commuters from extreme weather conditions
- ✓ Platform resurfacing to reduce the gap and height for commuters boarding and alighting the trains

New lifts, opening soon

The four new lifts to the station platforms are expected to open in the coming months, with final testing and commissioning currently being carried out.

Pictured right: Rooty Hill residents Belle and Carol testing the new car park lift with the installation team and Project Manager, Shane.

"We are so excited that Rooty Hill is finally getting lifts and our community is so appreciative for the government upgrade to our station. We have been watching construction of both the station and new multi-storey Commuter Car Park over the past nine months, and it is so wonderful that we will soon be able to use the new lifts to catch train or go to the other side of Rooty Hill."
Belinda (Belle) Chapman, Rooty Hill resident (pictured above on the left)

Weekend work

To ensure the safety of workers, pedestrians and motorists, some weekend work will be required in January during a scheduled Sydney Trains track work period, where no trains will be running.

Rooty Hill Station will be closed, however the footbridge will remain open to pedestrians to allow access between the south and north side of the station.

This work will take place from **6am, Saturday 18 January until 12am, Monday 20 January.**

What construction activities you will see?	What equipment we will be using...
Install additional screens on the footbridge	Elevated Working Platform (EWP) & power tools
Complete tiling and electrical work on platforms	Hand tools & power tools
Undertake line marking on platforms	Hand tools
Complete asphalt work around station	Construction truck & hand tools
Renew ballast (rocks) on railway tracks	Rail excavator & dump truck
Thorough clean of platform and footbridge	High-pressure cleaner

Thank you for your patience as we work to complete the Rooty Hill Station Upgrade in the coming months.

This document contains important information about public transport projects in your area. If you require the services of an interpreter, please contact the Translating and Interpreting Service on **131 450** and ask them to call Transport for NSW on **(02) 9200 0200**. The interpreter will then assist you with translation.
