Power Supply Upgrade Program
Canley Vale

COMMUNITY NOTIFICATION FEBRUARY 2020

Transport for NSW is upgrading electrical infrastructure as part of the Power Supply Upgrade Program, which is designed to meet expected power requirements for Sydney's future rail network and new fleet of air-conditioned trains.

**Weekend work**

**Between 6am and 6pm on Saturday 1 and Sunday 2 February,** we will be working inside the rail corridor at Canley Vale to install and adjust overhead wires. We will install safety screens and remove and replace overhead wire structures.

Access into the rail corridor will be via the rail gates on Prospect Road, Bareena Street, Carcoola Street and First Avenue, Canley Vale.

To ensure the safety of our customers and staff, this work will be completed during a scheduled Sydney Trains trackwork weekend. Train services will be affected during weekend work. Please contact Transport Info on **131 500** or visit **transportnsw.info** for information about replacement bus services.

**Construction equipment**

Equipment to be used includes cherry pickers, excavators, jackhammer, concrete trucks, generators, crane trucks, winches, work vehicles and various hand and power tools.

Transport for NSW is committed to minimising noise impacts on the community. We switch off equipment when it is not being used, place equipment as far away from properties as possible and monitor our work activities to make sure noise levels are being managed effectively.

For more information call **1800 684 490,**
Email projects@transport.nsw.gov.au or visit transport.nsw.gov.au/projects
For urgent enquiries or complaints regarding construction activities, please call 24 hours **1800 775 465**
Keeping the community informed
