Transport for NSW is upgrading electrical infrastructure as part of the Power Supply Upgrade Program, which is designed to meet expected power requirements for Sydney’s future rail network and new fleet of air-conditioned trains.

**What you may notice**

**Between 3pm Friday 31 January and 7pm Sunday 2 February**, approximately 24 spaces in the Warwick Farm Commuter Car Park opposite Hart Street, Warwick Farm will be closed to establish a temporary site compound for weekend rail work (see map over page).

**Weekend work**

**Between 6am and 6pm on Saturday 1 and Sunday 2 February**, we will be working inside the rail corridor to excavate and construct concrete footings for new overhead wire structures. Access into the rail corridor will be via the rail gates on Burnside Drive and the Warwick Farm Commuter Car Park.

To ensure the safety of our customers and staff, this work will be completed during a scheduled Sydney Trains trackwork weekend. Train services will be affected during weekend work. Please contact Transport Info on **131 500** or visit **transportnsw.info** for information about replacement bus services.

**Construction equipment**

Equipment to be used includes cherry pickers, vacuum trucks, excavators, generators, street sweepers, concrete pumps, concrete trucks, work vehicles and various hand and power tools.
Transport for NSW is committed to minimising noise impacts on the community. We switch off equipment when it is not being used, place equipment as far away from properties as possible and monitor our work activities to make sure noise levels are being managed effectively.
