**Power Supply Upgrade Program**  
**Sefton to Chullora**

**COMMUNITY NOTIFICATION**

Transport for NSW is upgrading electrical infrastructure as part of the Power Supply Upgrade Program, which is designed to meet expected power requirements for Sydney’s future rail network and new fleet of air-conditioned trains.

**Upcoming construction activities**

We will be replacing overhead wires and installing new footings and power poles between Sefton and Chullora stations.

**Traffic changes - Joseph Street (A6)**

- From **10pm Saturday 7 to 7am Sunday 8 March**, three out of four northbound lanes and two out of three southbound lanes will be closed on Joseph Street between Main Avenue, Lidcombe and Lewis Street, Regents Park to allow a crane to install a new power pole.
- For the safety of the community and workers there will also be intermittent full road closures on Joseph Street in the same location **from 1am to 5am** for up to 10 minutes while we replace overhead wires.
- Traffic delays may be experienced. Traffic control and electronic sign boards will be in place to direct motorists and pedestrians.

**Construction equipment**

Equipment to be used includes cherry pickers, street sweeper, lighting towers, mobile crane, vacuum trucks, work vehicles and various hand and power tools.

Transport for NSW is committed to minimising noise impacts on the community. We switch off equipment when it is not being used, place equipment as far away from properties as possible and monitor our work activities to make sure noise levels are being managed effectively.
Keeping the community informed

If you would like to speak with the project team about this work, please contact us via the details provided below. Thank you for your understanding during this work.
