

MetroNet Removal Project

Ashfield

COMMUNITY NOTIFICATION

MARCH 2020

Transport for NSW has installed a new Digital Train Radio System (DTRS). The DTRS is improving communications between train drivers, controllers and guards across the electrified network. The previous analogue MetroNet Train Radio System is now being removed across the rail network.

Weekend work

Between 7am and 6pm on Saturday 28 March, we will be removing a redundant pole within the rail corridor adjacent to Brown Street at Ashfield Station.

One of the two lanes into the Ashfield Commuter Car Park will be closed from **7am to 1pm on Saturday 28 March** to allow the work to be carried out safely. Access into the carpark will be maintained and traffic control will be in place to direct pedestrians and motorists around the work site.

For details regarding this work, please see map over the page.

To ensure the safety of our customers and staff, this work will be completed during a scheduled Sydney Trains trackwork weekend. Train services will be affected during weekend work. Please contact Transport Info on **131 500** or visit **transportnsw.info** for information about replacement bus services.

Construction equipment

Equipment to be used includes a cherry picker, work vehicles and various hand and power tools.

Transport for NSW is committed to minimising noise impacts. We switch off equipment when it is not being used, place equipment as far away from properties as possible and monitor our work activities to make sure noise levels are being managed effectively.

Keeping the community informed

If you would like to speak with the project team about this work, please contact us through the details provided below. Thank you for your understanding during this work.
